2. Prevent Corrosion

Keep the product away from acidic or alkaline substances, as they may cause corrosion or damage to the materials.

3. Use Only Authorized Replacement Parts

Do not use unauthorized or third-party replacement parts, as they may compromise the product's safety and durability. If a replacement is needed, contact the manufacturer or an authorized dealer for approved parts.

4. Cleaning Precautions

Do not machine wash or rinse any part of the product directly with water, as this may damage the materials and reduce product lifespan.

5. Prevent Pests

Keep wooden furniture away from damp or humid areas to prevent pest infestations and wood damage. Use a dehumidifier or air conditioner during humid seasons to maintain a dry environment.

Avoid placing furniture in direct sunlight, as prolonged exposure may cause cracking, discoloration, or fading. If sunlight exposure is unavoidable, use curtains or shades to minimize damage.

Apply furniture oil periodically to maintain the wood's shine, prevent cracks, and extend its lifespan.

Keep furniture away from acidic or alkaline substances, as these can damage the surface and reduce durability.

12. Use a Damp Cloth for Cleaning
Wipe furniture with a well-wrung damp cloth to prevent water damage or swelling. Avoid excessive moisture exposure.
