

INSTALLATION INSTRUCTIONS

LED FLUSH MOUNT FIXTURE

120VAC Input, Dimmable

READ AND FOLLOW SAFETY INFORMATION

Turn off the main power at the circuit breaker before installing and servicing the fixture to prevent possible injury from electric shock.

All electrical connections must be in accordance with local and National Electrical Code (N.E.C.) standards. If you are unfamiliar with proper electrical wiring connections, obtain the services of a qualified electrician.

INSTALLATION & ASSEMBLY

Remove the fixture and the mounting package from the box and make sure that no parts are missing by referencing the illustrations on the installation instructions.

1. Pull the supply wires (4 & 5) and house ground wire (6) out from the outlet box (1).
2. Thread the fixture screws (8) into the appropriate threaded holes of the outlet box (1).
3. Electrical connections. Connect the black fixture black wire (10) to the black supply wire (5) and the white fixture wire (9) to the white supply wire (6) using wire nut (7).
4. Connect the fixture ground wire (11) to the supply ground wire (4) together using wire nut (7). Wrap all wire connections with electrical tape to ensure secure connection.
5. Carefully tuck all wires back into the outlet box. Place the fixture pan (2) over outlet box and feed fixture screws (8) through keyhole slots. Rotate the fixture pan(2) clockwise until screws(8) slid into the narrow end of the keyhole slots and tighten firmly.
6. Final assembly- Secure the lens (3) and ring (12) to fixture pan (2) using three cap nuts (13).
7. Installation complete, restore power at the circuit breaker and turn light switch on to activate this fixture.

Care and maintenance – Use dry and clean cloth to wipe the surface of the fixture.

Replacement- This LED product has no bulb to replace.
