Notes

1. Please do not mix water into these essential oils.
2. Please re-fuel the machine as soon as possible to avoid the machine working without oil for a long time.
3. Please make sure that the machine is transported without any essential oil in the bottle to prevent the machine from moisture and leakage.
4. Please make sure the machine is upright and **leak-free**. Otherwise, it may damage the equipment and parts.
5. Please tighten the oil bottle and oil bottle seal.
6. Please do not open the machine by yourself. If there is any problem, please contact us in time.
7. Please clean the machine with alcohol every 2 months.
8. For each machine, you need to set the local time and working time you want. The machine can only work when your local time is within working hours.
9. Please allow the slight color difference caused by the shooting light and 1-3 cm error due to manual measurement, and make sure you do not mind before ordering.
