

## - The 1.8m Nester TiiPii Bed -

Each and every TiiPii Bed is made using the highest quality materials and is finely crafted to provide great enjoyment and relaxation for many years to come. Please read these instructions carefully. Proper maintenance and care will help to prolong the life of the TiiPii and reduce the potential for injury, product damage or voided warranty.

## - So, what is it that - you'll find inside...?

- 1 x 1.8m TiiPii Bed base and suspension system
- 1 x Set of eight aluminium TiiPii ring sections
- 1 x TiiPii ambient canopy net
- 1 x Convenient carry bag

## - Minimum space required - to hang your TiiPii

Recommended hanging point from floor height: 2.25m  
Minimum floor space: Ø 2.25m

### -Please retain this important information for future reference-

For instructions on how to care,  
assemble and use your  
TiiPii safely in other languages,  
please visit our website,  
**[www.TiiPiibed.com](http://www.TiiPiibed.com)**

**! Don't forget your TiiPii's maximum load limit is 250kg (550lbs) !**

## - Assembling your TiiPii -

1. Remove the TiiPii base, eight aluminium ring sections & canopy net from the carry bag
2. Fully open the fabric TiiPii base and place it on the ground, with the suspension ropes resting on the underside of the base, and the zipper side on top. Open the semi-circular zipper section of the base.
3. Make sure there's sufficient hanging space to freely hang the TiiPii Bed if using without the TiiPii Stand (Refer to measurements on Page 1)
4. Start by feeding the ring sections, one by one and all in the same direction, through the opening located on one side of the TiiPii Bed base. \*FYI, it helps to have someone on the opposite side of the TiiPii, assisting to shuffle the ring sections around smoothly as they are fed through the sleeve.
5. Each ring section must be connected 'male' to 'female'. The male end of each ring section will lock itself into the female end of the previous section.
6. Feed four of the ring sections through the fabric TiiPii base to form a semi-circle within the sleeve. After this, keep adjoining the remaining ring sections together to form a full circle – these sections will not be concealed within the fabric base yet.
7. When the ring sections have been fully assembled to form a solid circular ring piece, slip the other half of the fabric TiiPii base around the remaining ring sections & zip closed.
8. Hold the TiiPii by the top of the hanging point of the suspension ropes to double check that ropes are not twisted or looped underneath each other. Check that the base of the bed looks evenly connected.
9. Ensure that the desired hanging area is free from unwanted objects, sharp items, flames and obstructions of all kinds.
- 10. If using an alternative stand or structure other than the TiiPii Stand, it is imperative that the desired hanging apparatus is safe and able to support the maximum load limit specified for the TiiPii Bed of 250kg. \*It is entirely the responsibility of the user to test the hanging structure well prior to use and to ensure that the TiiPii is adequately secured and supported.**
11. Once the TiiPii is securely hung, attach the ambient canopy net by fastening the Velcro tabs just below the top loop at the top of the TiiPii if desired.
12. The ambient canopy net can also be tied to the suspension ropes via the internal strings to secure it in place, or leave it loose to allow more breeze to filter through.
13. If required, use the tether points positioned on the side of the TiiPii to fasten or tether the TiiPii down when necessary. This is highly recommended in moderate to high winds.

## **-TiiPii Safety-**

**Please read & complete these safety checks every time before use to avoid hazard and / or injury:**

1. The TiiPii Bed is not intended for use by children under the age of 3 years. Infants or young children under the age of 3 are never to be placed inside the TiiPii Bed at any time.
2. Children over the ages of **3+** are to be under direct adult supervision at all times whilst using the TiiPii Bed. Never leave a child of any age unattended.
3. The maximum load limit is 250kgs. Never exceed this under any circumstances.
4. Never hang the base of the TiiPii Bed more than 50cm / 20" above the ground.
5. Never stand, swing, bounce or jump inside the TiiPii; it is not to be used as a swing, trampoline or a toy.
6. Always check that the overall structure, suspension ropes and ring system are in good order, without any deformation.
7. Do not use if there are obvious signs of damage or wear and tear that could impair the strength or usability of the TiiPii Bed.
8. Smoking and naked flames of any kind are forbidden in or around the TiiPii. Never hang or use a TiiPii within the vicinity of flames or direct heat of any kind. (candles, cigarettes, fireplaces, campfires, fire-pits, BBQ's, radiators, etc).
9. Never allow water to gather in the base of the TiiPii Bed – failure to do so could provide a risk of children drowning inside.
10. Ensure that the position of the TiiPii is sufficiently clear of walls, sharp objects & unwanted obstructions from either side, above and below the TiiPii Bed.
11. Ensure there are no signs of wear and tear, as this could compromise the strength of the fabric. Please always wash and dry the TiiPii as directed within the 'TiiPii Care and Cleaning Instructions' section within this booklet (Refer to page 5)
12. Do not allow the suspension ropes to become twisted or intertwined at any time. Do not rotate the TiiPii or wind up the ropes to spin the TiiPii around as this could cause injury.
13. If using the TiiPii with the TiiPii Stand, ensure the ground is level & always refer to the 'TiiPii Stand Safety and Maintenance Checks' prior to each use.
14. Always ensure any alternate structure, hanging point and knots used to support the TiiPii Bed are strong, without defects and structurally adequate to bear the intended maximum load limit of 250kgs / 550lbs at all times without compromise. This is solely the user's responsibility to ensure and failure to do so could result in serious injury.

## **-How to safely enjoy a TiiPii-**

Keep both feet on the ground and enter or exit from your TiiPii in a gentle, smooth motion. We advise to slowly sit, bottom first like you would a chair, and shuffle your way into your TiiPii. Do not jump, dive or step in as this could cause damage or injury.

Never climb in one foot at a time. Please do not jump or stand inside the TiiPii with sudden movements.

Ensure you can easily step out from the TiiPii onto solid ground, placing feet out first and holding onto the suspension ropes or ring system for added balance and support as required.

The incline of the TiiPii will change depending on where the most weight is centered. Use the harness loops on the base of the (3 points) to anchor and tie down the TiiPii into a fixed position if required. This will stop the base from swaying and tilting into positions whilst there is movement inside. This is highly recommended when in use by children and in strong winds.

If pairing with the TiiPii Stand, always ensure the Stand is positioned on a flat, firm & horizontal surface only.

Do not attempt to setup or use the Stand on a sloping, uneven or soft ground as the Stand may become unbalanced, resulting in injury - refer to the 'TiiPii Stand Safety' tab within the TiiPii Stand Instructions before use.

Children are to be supervised at all times. Not for children under the age of 3.

Never exceed the load limitation of 250kgs / 550lbs under any circumstances.

If there are any concerns or questions regarding safety, please refrain from use and contact us - we are always here to help.

## - Care and cleaning - instructions...

Rest assured we are absolute sticklers for quality. We want you to be able to enjoy your TiiPii Bed for many years to come - and if you follow our simple Care and Cleaning instructions, we can guarantee that you will do just that...

**The Nester canvas TiiPii Bed is not designed to be set up outdoors permanently.**

It is recommended for use in fair weather, and should always be ideally paired with its optional waterproof cover (sold separately).

Even when paired with the waterproof cover, leaving the TiiPii Bed set up for long amounts of time outside will greatly reduce the lifespan and look of the TiiPii Bed. If undesired weather is forecast, it is always highly recommended to pack the TiiPii away  
**COMPLETELY DRY.**

Although the fabric is treated for mould and UV resistance, failure to thoroughly clean, entirely dry and stow away will compromise the lifespan of your TiiPii greatly, and void warranty

**Machine washable.**

**Cold wash only, preferably on a gentle cycle or inside a wash bag.**

**Do not tumble dry.**

**Do not iron.**

**Do not bleach.**

**Remove the ring section prior to washing.**

**Always dry your TiiPii Bed with the ring system fully reinserted and assembled to prevent deformation; this is very important.**

Do not allow the TiiPii Bed to come into contact with a vertical surface or any other object that could damage the ring system or cause abrasion to the fabric.

Do not leave in direct sunlight or harsh weather conditions of any kind. A TiiPii should never be subjected to prolonged weather such as excessive sunlight, rain, snow, etc.

Never allow water to gather in the bottom of the TiiPii – as this could not only compromise the integrity of the fabric over time, but also increase the risk of children drowning.

Stow or pack away the TiiPii Bed in periods between use.

Always ensure the TiiPii and / or the waterproof cover is completely 100% dry when packing it away. Any moisture or dampness will result in damage caused by mould.

Clean and care for your TiiPii as advised within these instructions; if mould, mildew or stains are not treated when noticed, you will compromise the appearance and quality of the TiiPii Bed.

## - Warranty -

Please refer to website [www.tiipii.com](http://www.tiipii.com) for regional warranty information. Proof of purchase always required. Warranty does not cover fair wear and tear or damage caused by lack of preventative maintenance. Warranty void if load limit is exceeded, if care instructions are not followed or if the TiiPii was not used or cared for appropriately. Please refer to the 'TiiPii Safety' & 'Care & Cleaning' sections within this manual for details.

**Not recommended for prolonged use outdoors. It is strongly recommended to use the TiiPii with the TiiPii waterproof cover. During periods of undesired or extreme weather of any kind, dry all elements thoroughly and pack or stow away to avoid mould, UV damage, wear and tear or voided warranty.**

Warranty voided if used for commercial purposes.

Notwithstanding anything to the contrary contained in this document, Tareo UK LTD and all agents & representatives thereof will not, under any circumstances, be liable to distributor or end users for consequential, incidental, special, punitive, or exemplary damages or death arising out of or related to the use of a TiiPii Bed in a manner not expressly intended by the manufacturer.

The end user is responsible for ensuring the TiiPii is properly installed in accordance with this manual and for confirming the load bearing suitability of any hanging structure. Children to be supervised at all times – never leave a child unattended.
