

Console Table Grey Wash

JFD002

WHAT IN THE BOX

ASSEMBLY PARTS

Step 1: Prepare the Top Panel (A)

Place the Top Panel (A) upside down on a soft, flat surface to prevent scratches or damage during assembly.

Step 2: Attach Legs (B) to the Top Panel (A)

Each leg (Part B) includes a pre-installed threaded bolt. Match the color-coded marking on each leg with the corresponding marking on the underside of the Top Panel (A). Insert the bolt and guide it into the threaded insert located at the bottom of Top Panel (A). Turn clockwise until semi-tight. Do not fully tighten at this stage. Repeat this process for all four legs.

Step 3: Install the Bottom Shelf (C) with Part (D)

Position the Bottom Shelf (C) between the four legs and align the holes on the shelf with the corresponding holes on each leg (Part B). Insert the pre-installed bolt of Part (D) from the top through the holes of Bottom Shelf (C), then guide it into the threaded insert located at the lower end of each leg (Part B). Turn clockwise until semi-tight. Do not fully tighten yet. Repeat this step for all four connection points. Once all parts are properly aligned and the shelf sits evenly, fully tighten all screws securely.

Step 4: Final Check

Carefully turn the table upright and ensure that all screws are fully tightened, the bottom shelf sits evenly, and the table stands stable without wobbling.
