j 6X20MM *4

k 8X40MM *2

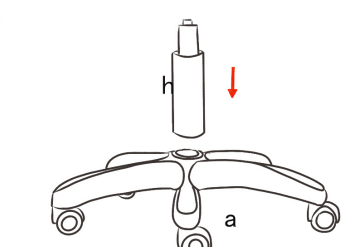

l 8x25MM *5

m 8x16MM *3

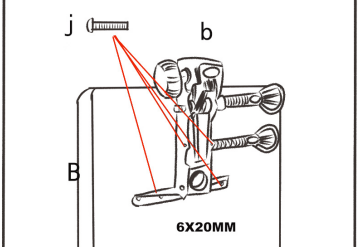

n The armrest cap*4

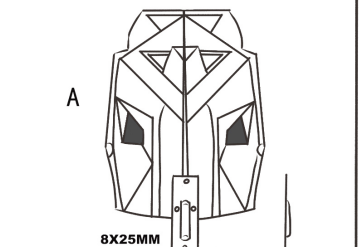

1. The wheel is for inset wheel, directly insert can (do not remove the iron ring on the wheel)

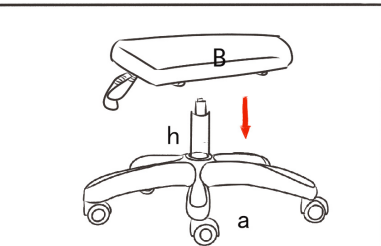

2. The gas pole can be directly inserted into the middle of the five-star feet, without screws

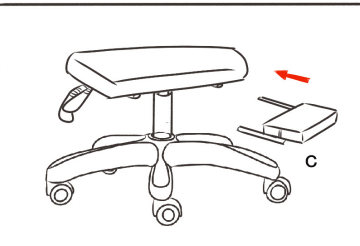

3. Install the tray, turn the cushion in reverse, place the tray on the cushion hole, screw on 4 fine and short screws

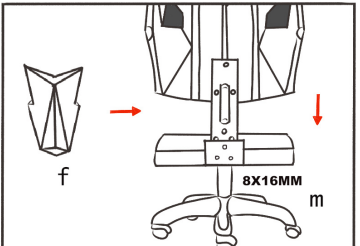

4. Turn the backrest back and align the hole of the connecting rod against the hole position of the back. Screw 3 middle and long screws. The convex surface is on the outside

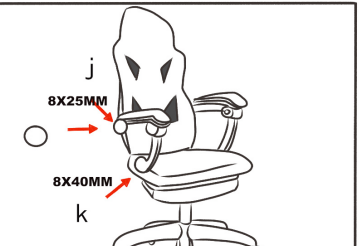

5. Put the cushion on the gas pole. The gas pole is positioned in the hole of the tray and put directly into the tray

6. Insert the leg supporter into foot fixing hole under the cushion (if no leg supporter omit this step)

7. The connecting rod of the backrest is inserted into the hole of the tray, insert it into the appropriate position and then tightened the screw, and the bottom up the back cover

8. Armrest has cent left and right sides, the side that has groove is outwards, armrest aims at cushion and backrest, screw on 8X25MM*2 and 8X40MM*2 screws, Just put on an armrest hat
