

# Installation Manual

## Installation method of desk lamp:

1. Please open the package and take out all the components of the lamp: the lamp body, the bulb and the lampshade.
2. Before installation, please install the bulb first, then plug in the **110V** power supply and test whether the lamp is working properly.
3. Please turn off the lights before installation. First, install the lamp body (Image 2) and the base (Image 3). Insert the two springs of the lamp body into the lampshade (Image 1), then press the third spring in as shown in Image 4. Finally, fix the lampshade and the lamp body.
