

Ovente Wall-Mounted Vanity Mirror with Lights 7 Inches (MFW70 Series)

Key Features

BEST FOR PRECISION – Complement your vanity counter’s regular mirror with Ovente’s MFW70 Mirror series. This dual-sided 360° luxury mirror features 1× and 10× magnification, making makeup application, shaving, and tweezing out unwanted hairs a breeze.

BRIGHT LED LIGHT – A good mirror becomes unusable without an adequate lighting. This cool LED light-equipped mirror ensures you get both a crystal-clear reflection and an illumination that simulates natural lighting! Because it doesn’t alter the real-life colors, you’ll never leave the house with an uneven blush or heavily pigmented eyeshadows..

EXTENDING ARM – Perfect for anyone tight on vanity counter space, this mirror is designed with an extending arm that you can smoothly extend and pull out. Once you’re done, you can fold the arm and push it back against the wall again.

RUNS ON BATTERIES – This mirror features a cordless and clutter-free design: It runs on four AAA batteries. It also takes rechargeable batteries.

NO DISTORTION – Poorly made mirrors usually have reflection bends or slight warps that are really bothersome. With this mirror, you’ll be guaranteed that the reflection you see is accurate to real life. No distortion at all.
