WARNING: CHECK FOR HIDDEN PIPES AND CABLES BEFORE DRILLING.

IMPORTANT: IF YOUR WALLS ARE NOT SOLID LIKE BRICK OR STONE, IT WILL REQUIRE SPECIAL FITTINGS (NOT SUPPLIED).

- Place the fixing strip against the wall and mark the position for drilling hole.
- Drill a hole in the wall to a depth of 30mm by using a 6mm drill bit. If the surface of your wall is soft and crumbly, we would advise you to use a 5mm drill bit for a tighter fit.
- Insert the wall plug into the hole with end flush to the wall surface.
- Attach fixing strip to the wall using the 25mm screw + washer and securely tighten.
- Pre-drill small pilot hole on the back edge of the furniture top using a 2mm drill bit. Attach the other end fixing strip to the back edge of the furniture top using the 14mm screw + washer and securely tighten.
