Please do not return the product. For any after-sales issues, please contact us through the email below. If you need to return the product, please keep the package box carefully, as we only accept returns in the original packaging

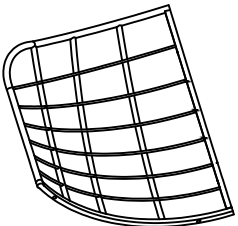

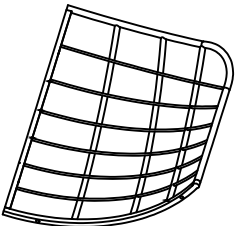

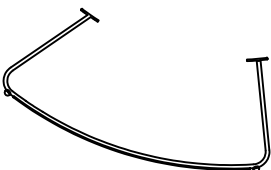

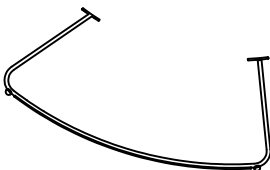

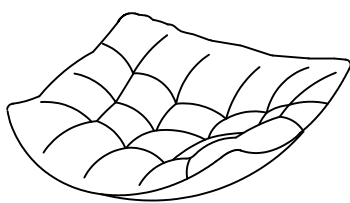

## Before You Start

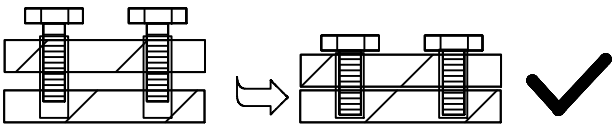

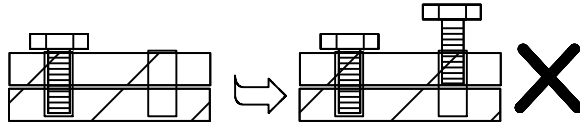

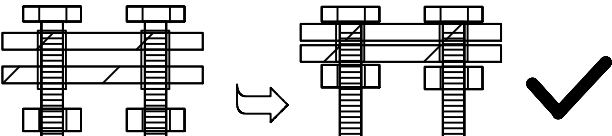

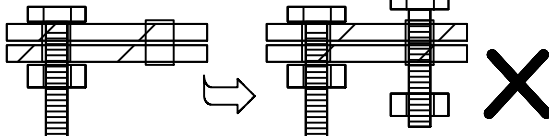

-  Read each step carefully before starting. It is very important to ensure each step followed in correct order, otherwise assembly difficulties may occur.
-  Keep small children away from moving parts and potential pinch points.
-  Work in a spacious area, preferably on a carpet close to where the unit will be used.
-  Keep the handtools close at hand. Do not use power tools to assemble your furniture. They may scratch or damage the parts.

## Step 1

| G                                                                                   | J                                                                                   |
|-------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|
|  |  |
| 4pc                                                                                 | 4pc                                                                                 |

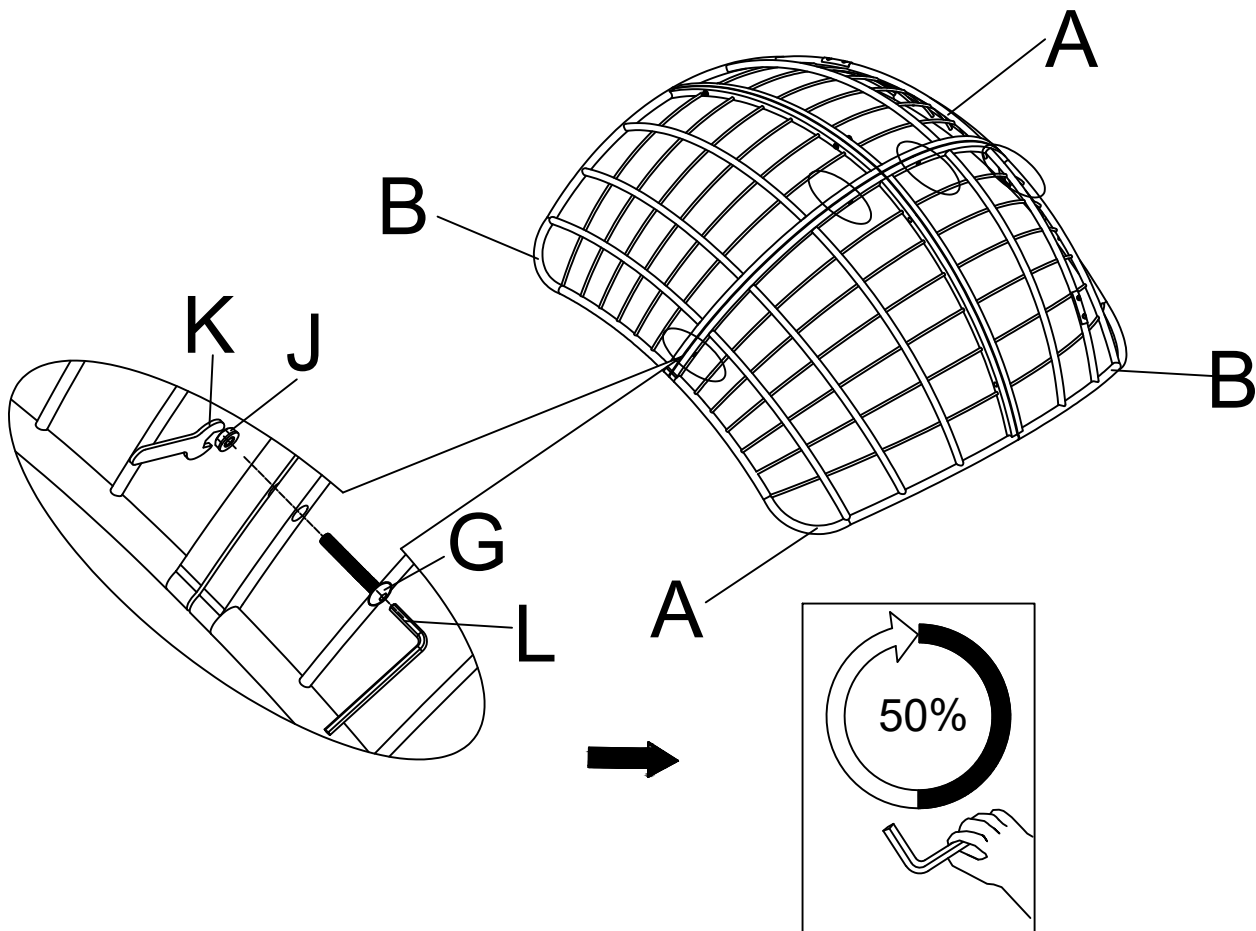

Step 1: Align parts (A) and (B) according to the holes, and secure them using screws (G) and nuts (J). Tighten the screws to 50% only.

**Critical Note:** For smooth assembly, tighten the screws to only 50% tightness at this stage. Once all assembly steps are completed, fully tighten all screws in one go.

## Step 2

| G                                                                                   | J                                                                                   |
|-------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|
|  |  |
| 4pc                                                                                 | 4pc                                                                                 |

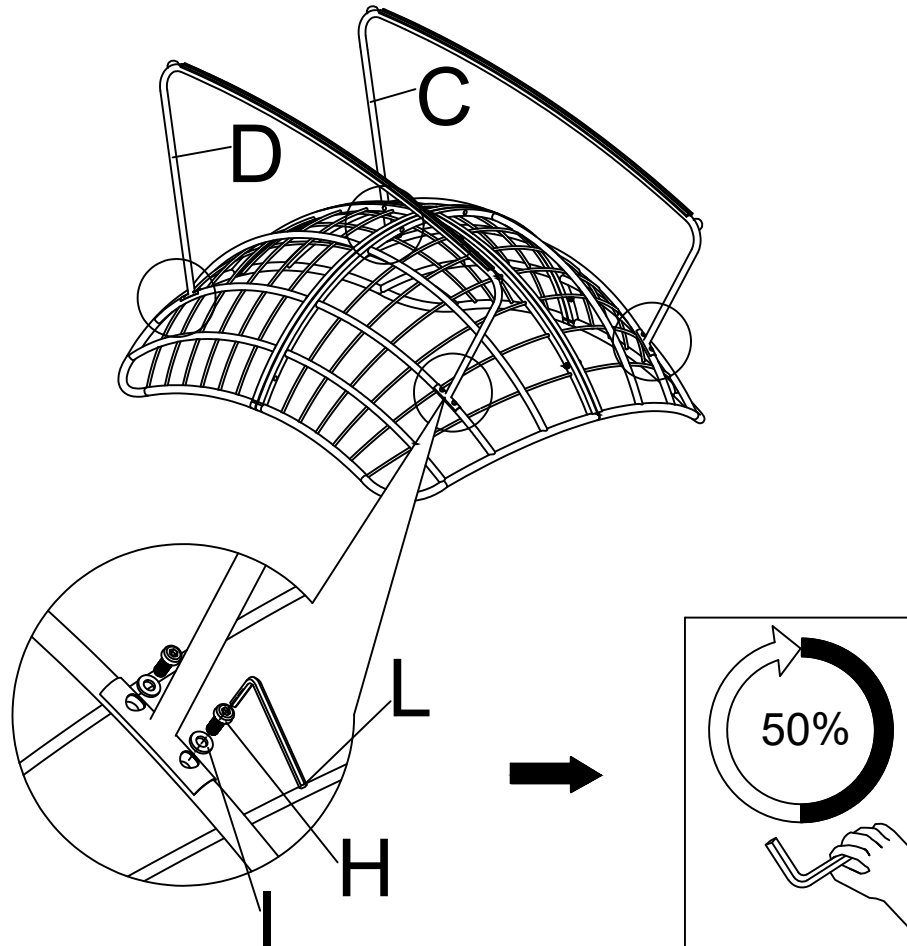

Step 2: Align the assembled parts according to the holes (four in total) to form a complete seat, and secure them using screws (G) and nuts (J). Tighten the screws to 50% only.

**Critical Note:** For smooth assembly, tighten the screws to only 50% tightness at this stage. Once all assembly steps are completed, fully tighten all screws in one go.

## Step 3

| H                                                                                   | I                                                                                   |
|-------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|
|  |  |
| 8pc                                                                                 | 8pc                                                                                 |

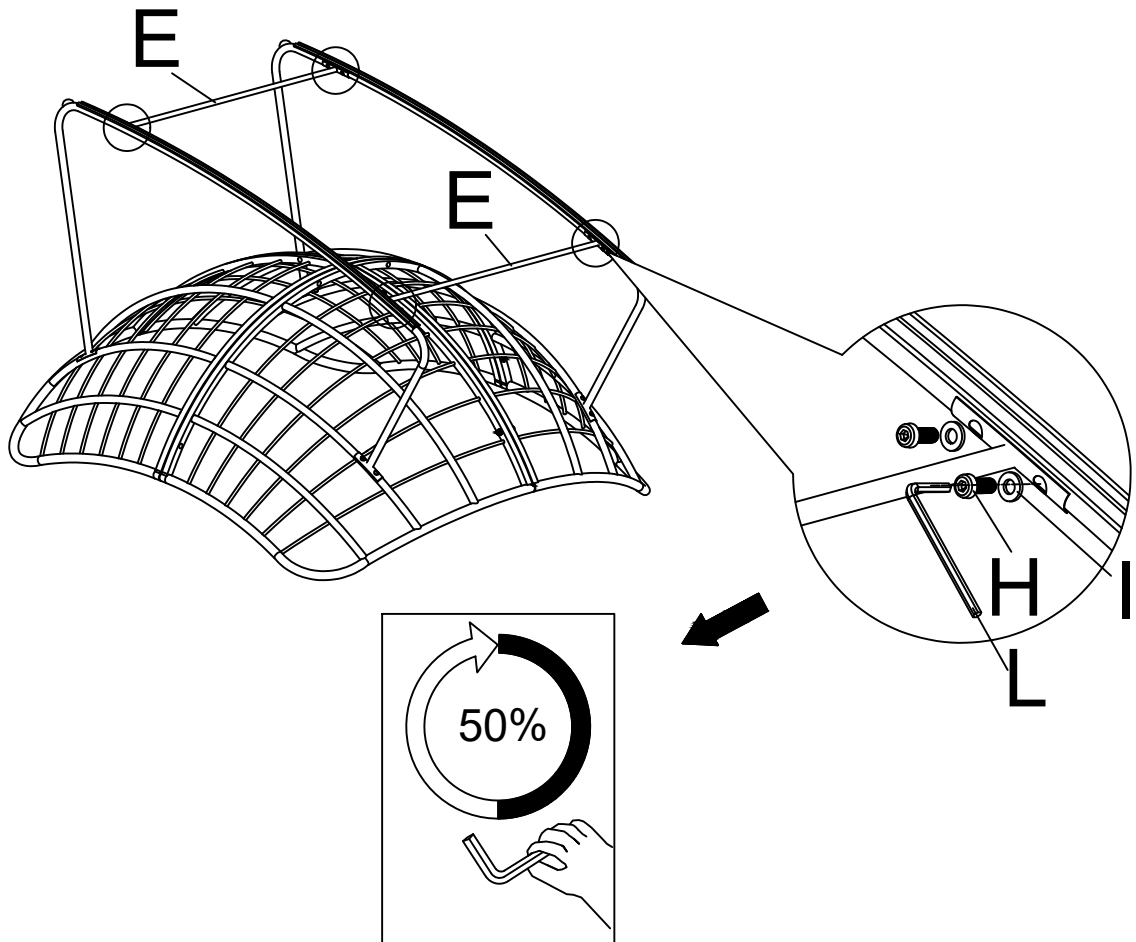

Step 3: Install the legs of the rocking chair. Align the legs to the holes on the frame, and secure them using screws (H) and washers (I), tightening them to 50% only (note that the side of the legs with holes is for installing the connecting rod and should face inward).

**Critical Note:** For smooth assembly, tighten the screws to only 50% tightness at this stage. Once all assembly steps are completed, fully tighten all screws in one go.

## Step 4

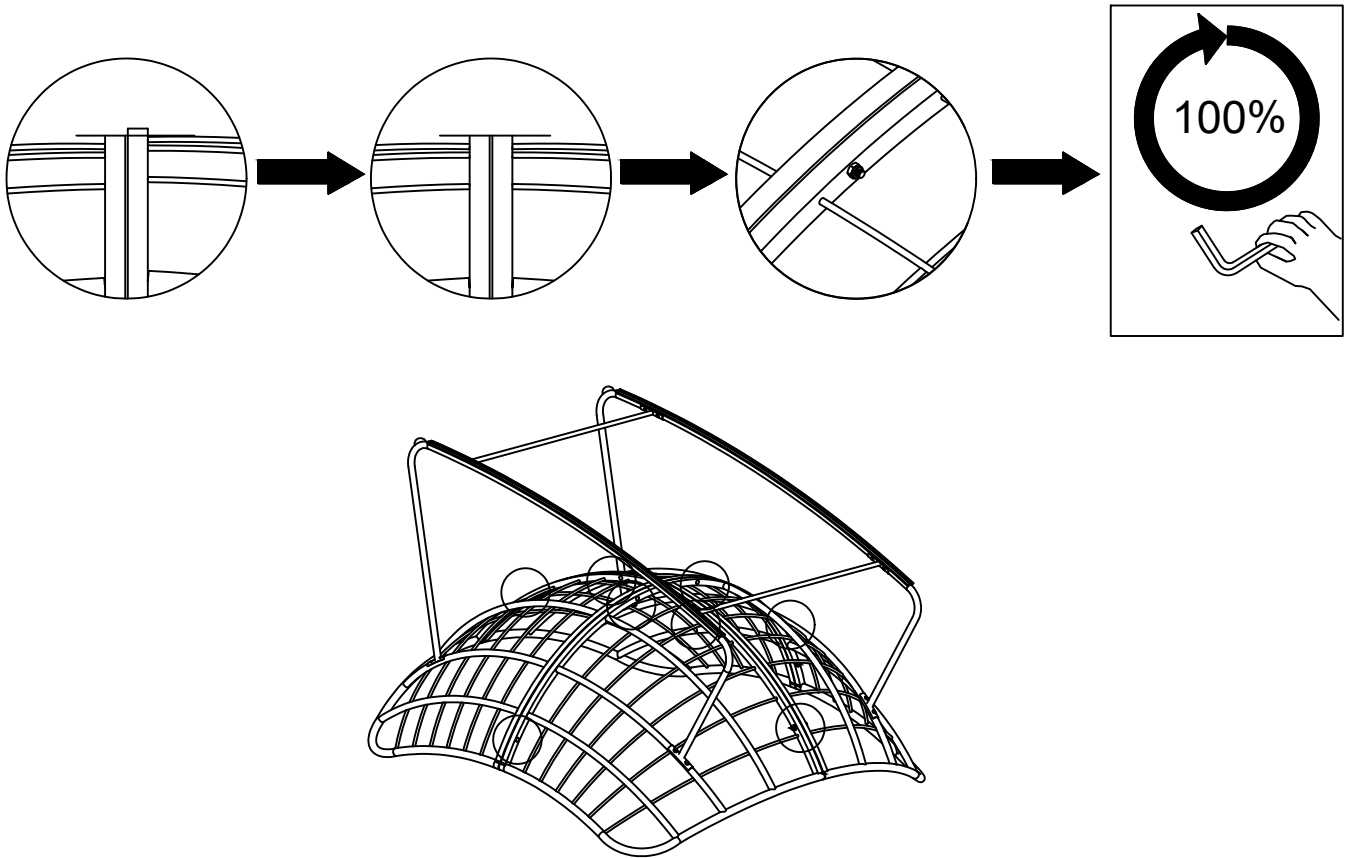

| H                                                                                   | I                                                                                   |
|-------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|
|  |  |
| 8pc                                                                                 | 8pc                                                                                 |

Step 4: Refer to the diagram and connect the two legs using connecting rod (E), securing them with screws (H) and washers (I). Tighten the screws to 50% only.

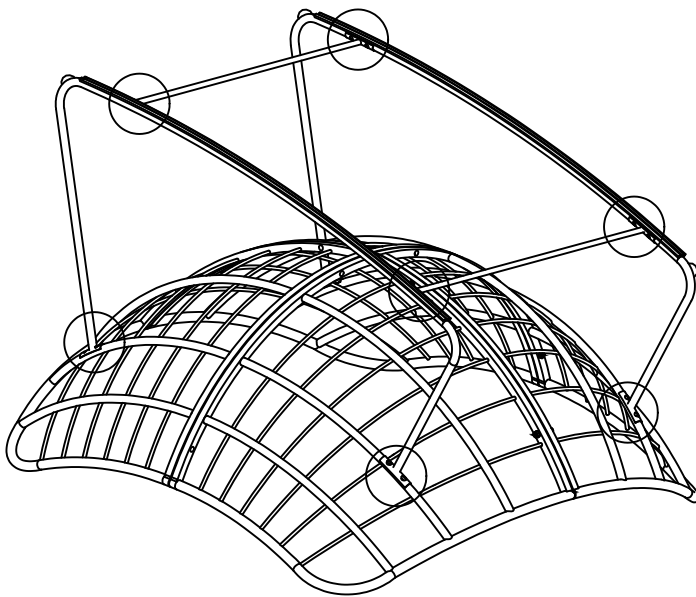

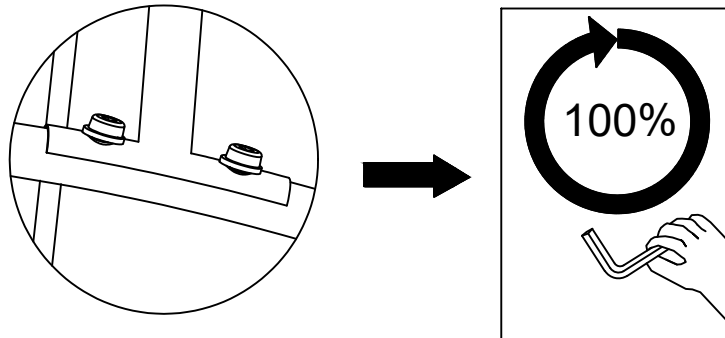

**Critical Note:** For smooth assembly, tighten the screws to only 50% tightness at this stage. Once all assembly steps are completed, fully tighten all screws in one go.

## Step 5

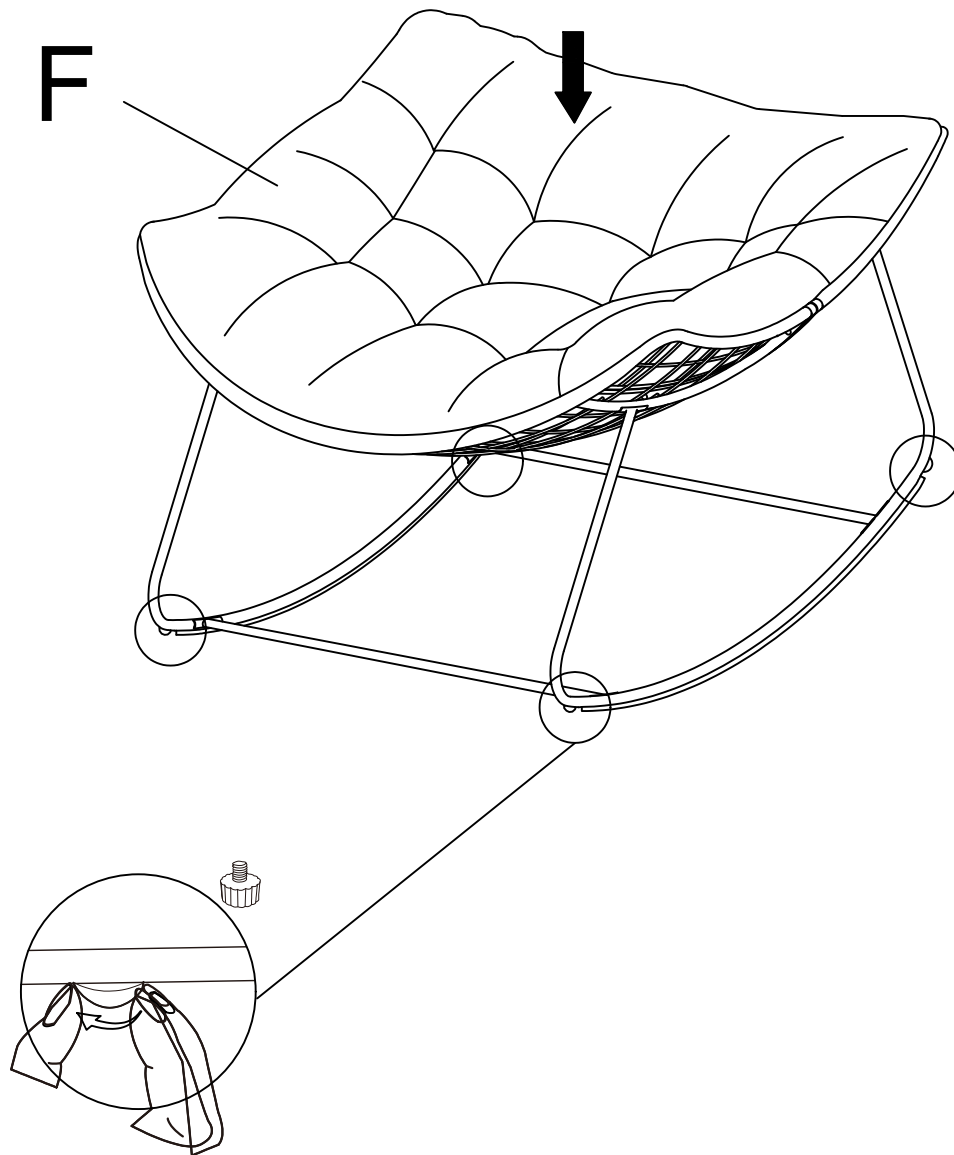

Step 5: Adjust the seat to ensure it is level, then fully tighten all 8 screws securing the seat.

## Step 6

Step 6: Fully tighten all 8 screws securing the legs and all 8 screws securing the two connecting rods E.

## Step 7

Step 7: Install two anti-slip pads at the bottom of each leg, then place the cushion to complete the installation.
