Owner's Manual

The Buttons on the Speaker's Control Panel and Operations

① LED Indicator –

When charging the speaker, it shows RED; once charged in full, it turns off.

Before the Bluetooth pairing, it shows flash blue; once paired successfully, it shows solid Blue.

② Power On/Off –

Press and hold (long press) to turn the speaker power ON or OFF.

③ Play or Pause –

Press to pause the music or play music again

④ Previous / Volume –

Press to play the Previous music; long press to reduce the volume

⑤ Next / Volume + –

Press to play the next music; long press to increase the volume

⑥ TWS Pairing –

When both rock speakers are turned ON, the two automatically link together. You can play music from an audio source to both speakers. If you just need to listen to the music from one rock, you can press this button on the other rock speaker to disconnect the TWS link.

⑦ Type-C (USB C) Charging Port –

Using a Type-C charging cable to charge the rock speakers.

⑧ Waterproof Plug –

Make sure the plug should be all the way down and firmly inserted.

Notes:

1. One rock speaker that turned on power first became a master unit. From the master speaker, you can activate or deactivate the TWS function for both speakers. You also can turn the TWS function off on the second speaker by pressing button ⑥ on that unit.
2. To activate the TWS function, keep two rock speakers within 49ft./15m. When both rock speakers turn on the power, the TWS automatically links between the two speakers. You will hear a beep sound indicating that two speakers are linked, and the TWS function is activated.
3. When a rock speaker turns on the power, the LED Indicator fast flashing indicates that the speaker is waiting for Bluetooth pairing. Once the Bluetooth pair is successful, the LED Indicator becomes steady blue.
4. When playing music, the LED Indicator remains steady blue on the master unit but changes to slow flash on the 2nd unit.
5. If no audio signal is transferred into the rock for 10 minutes when the speaker's power is on. The speaker will turn the power off automatically to save battery life.
6. You can control Play/Pause, and Volume up/down from speakers or your smartphone.
7. To turn off the power for both rock speakers, you just need to turn off one speaker by long pressing the power button. It will turn off the power for both speakers.
