

****Instructions for Use: Compressed Sofa (Universal Version)****

****Important Notes****

1. Remove the packaging and place the folded sofa flat on the floor.
2. Take off the plastic bag. Avoid using sharp tools or knives to prevent damaging the fabric.
3. After opening the sealed bag, the sofa will begin to expand immediately. Place it in a well-ventilated and dry area. Gently pat the sofa to help restore its full elasticity. It will mostly regain its shape within 72 hours.
4. Due to the nature of compressed sofas, the fabric cover may have noticeable creases when first unpacked. For faster smoothing, you can use an iron.
5. During use, ensure the floor does not remain damp for extended periods. Avoid poor ventilation to prevent mold.
6. If the sofa becomes soiled or stained (e.g., with oil), clean it using a specialized upholstery cleaner.
7. If you have any questions, please feel free to contact us. We will provide further assistance within 24 hours.
