ASSEMBLY AND INSTALLATION INSTRUCTIONS

- 1) Insert ¼" x ½" Button Head screws into lower crossbar and attach to scroll uprights and tighten.
- 2) We recommend that you anchor your rack into the solid wood of wall studs. Carefully measure the area where the rack is to be mounted and install the lag bolts directly into the wood studs. If it is not convenient to install your rack directly into wood studs you may use the new-technology DRYWALL anchors enclosed with your rack. The steel anchors are very strong and when installed in drywall will hold 100 lbs. each. Two anchors hold about 200 lbs. Follow the instructions in the Toggler kit.

WARNING: It is important that your rack is assembled correctly. If the unit is assembled or used incorrectly, it could become unstable and collapse, possibly causing injury.
