Created in the Color Field tradition of the 1940s, the Graduation Small Pendant is a large-scale piece that would hold its own in a boldly designed interior.

Wide rings of wrought iron in blue are accentuated by small exterior squares as a sophisticated design detail. The interiors of the rings have been treated to a contemporary gold finish to enhance the glow of the illumination. The Japanese-inspired fixture is included in our Hiroshi Koshitaka Collection. We also offer this fixture in a larger pendant and a chandelier.
