Vanity Care Guide

Vanity Care

- Avoid direct contact of sharp objects as they can cause exterior damage.
- Do not expose directly to the sun as it can cause aging and cosmetic damage.
- Avoid placing hot objects onto the vanity surface.

Countertop Care

- Kindly note that all our tops are sealed before shipping but may stain, scratch, or chip because they are porous by nature.
- Do not place hot items directly on the countertop as it can damage it.
- To prevent ring marks or staining, dry immediately.
- Place table mats beneath objects that can potentially scratch the surface.
- Use a clean, soft fabric to dust the vanity.

Cleaning and maintenance

- Normal stains: Wiping with a damp cloth or cloth soaked in kitchen cleaner is enough to clean daily stains, limescale, etc.
- Maintenance advice: If you are worried about the grease on your hands staining the surface, you can clean it with a kitchen cleaning cloth. Take care of visible stains and scratches by rubbing with a lotion cleaner or scrubbing sponge (containing abrasive particles). Wipe and polish the surface. For the pure color series, rinse the sponge (containing abrasive particles) after the above steps, and then gently wipe and polish the surface.
