

Wipe the surface on which you will stick the product with a cleaner. Make sure that the surface is oil-free, dry, and clean.

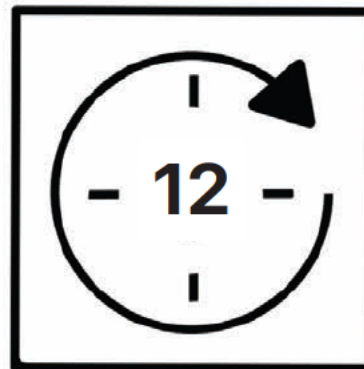

It is very important that the ground is flat (smooth) and dry. To be sure, you can dry it with a hair dryer before pasting.

Remove the protective side of the double-sided tape on the back of the product.

After aligning the product, stick and apply firm pressure for 60 seconds.

Please wait 12 hours before hanging anything on the hanger for the adhesive to harden.

When you want to remove the product, you can pull it out by heating it with a hair dryer.

Included in your package is an adjustable screw that you can use to adjust the position and length of the hanger.
