There is a two-dimensional code at the position of the power line. Scanning can download the APP for the control light

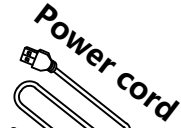

you can use the remote control to control the color

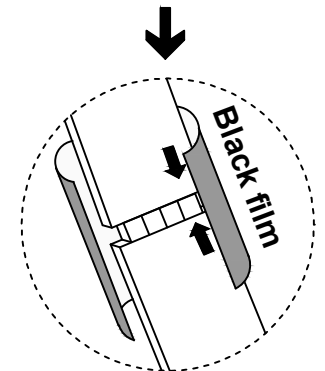

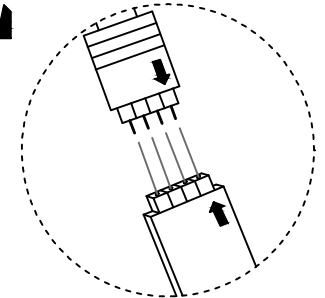

The LED lamp can only be used when it is powered on

There is a 4-pin connector behind this direction

If not, please pull him out through the hole from the front

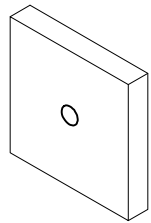

Note that the arrow points to the arrow

Wrap it with black tape and stick it

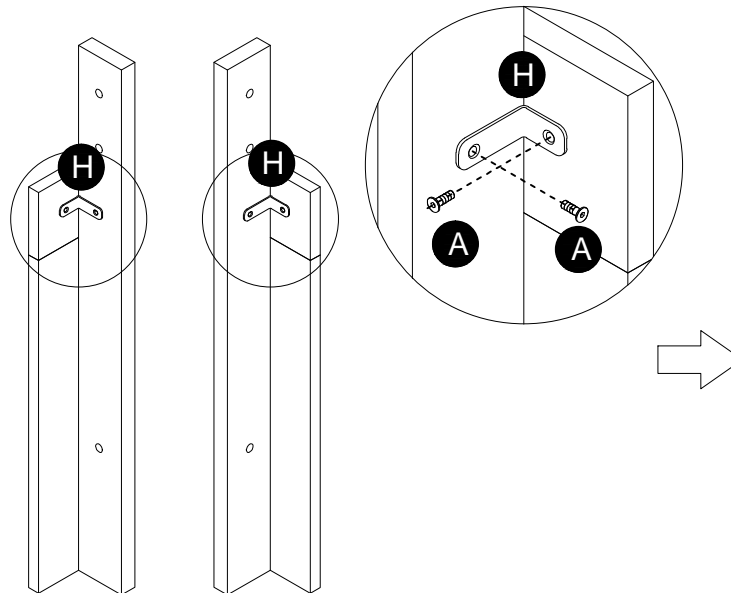

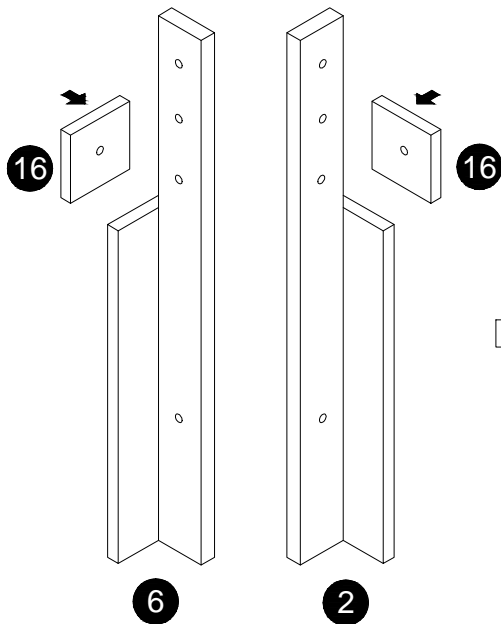

# Additional instructions

If you feel that the height of the head of the bed is not enough,  
please see the instructions on this page  
When you open the package, you will also see the following  
accessories, which are used to raise the  
height of the head of the bed during the assembly process

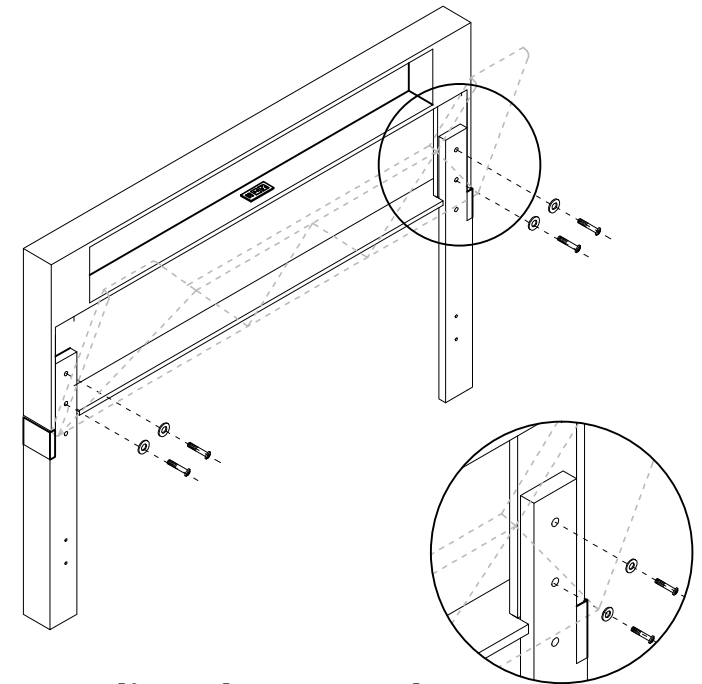

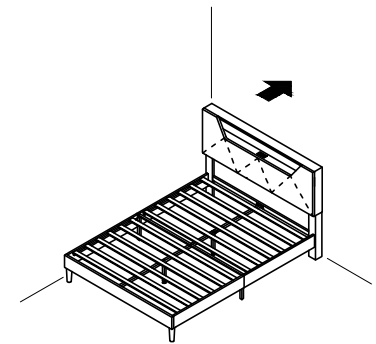

Wooden block

16 2PCS

After assembling  
according to this  
page, the head of  
the bed should  
be placed as flat  
as possible

Align the second  
and third holes
