The Mini Gardens 4

D2532S50626-4117

The Mini Gardens 4 is part of a series of four breathtaking prints reminiscent of the work of the distinguished American artist Joan Mitchell who is renowned for her contributions to painting, printmaking, and other paper-based media. The Mini Gardens 4 is an abstract print that presents a captivating fusion of contrasting hues, most notably charcoal, sky blue, grass green, coral pink, and vanilla. The striking array of colors elicits feelings of beauty and passion that immediately engage the viewer. Expressive brushstrokes work in harmony with the bold color scheme to create this dynamic work.

A concentrated section taken from the larger work, The Garden 1, The Mini Gardens 4 uses abstract forms and a lively color palette to encourage a quiet reflection of one's relationship with the natural world. An original addition to the carefully curated ART by TA Collection.
