Step 1

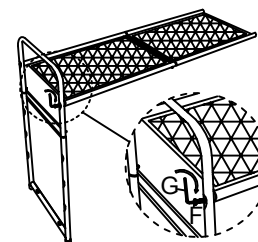

Hold Mesh C and D with both hands, both thumbs pressing the spring buttons on both outsides, and pushing toward each other at the same time until the spring buttons pop up.

Step 2

Hold Foot A and B with both hands, both thumbs pressing the spring buttons on both outsides, and pushing toward each other at the same time until the spring buttons pop up.

Step 3

Fasten the screws to fix the big mesh onto the shoe rack feet.

Step 4

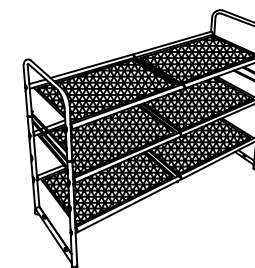

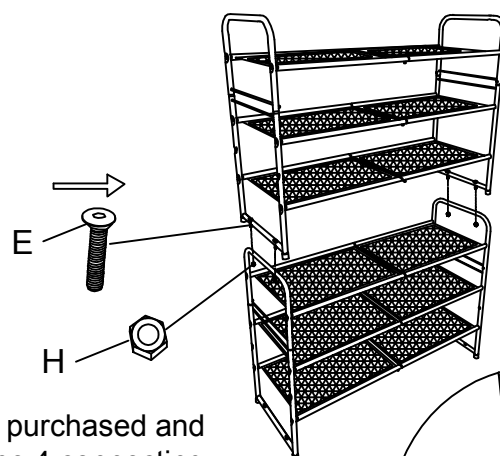

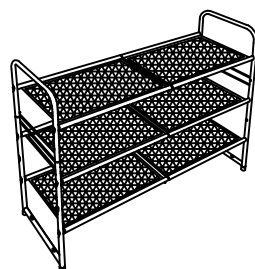

Illustration of a single shoe rack installed.

Step 5

In case where 2 units are purchased and need to be stacked, put the 4 connecting screws (E) into the aligned holes of the two shoe racks and then fasten the nuts (H) tight. (P.S.: There are two connecting screws with nuts in each box, so you will get four only when you buy 2 units)

Step 6

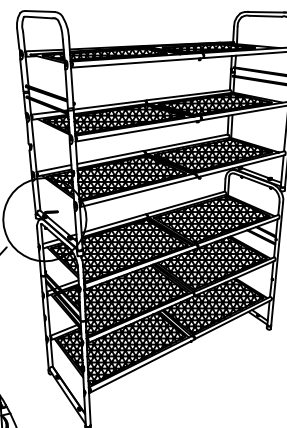

Illustration of two shoe racks installed. In case of needing to adjust the height for any layer, move up or down the Mesh as a whole to screw holes of another layer.

CHOKING HAZARD — Small parts.
Not for children under 3 years.
