<div><div>A</div>Side Frame</div> <div></div> <div>x2</div>	<div><div>B</div>Side Frame</div> <div></div> <div>x2</div>	
<div><div>C</div>Inner Top Frame</div> <div></div> <div>x2</div>	<div><div>D</div>Inner Bottom Frame</div> <div></div> <div>x2</div>	<div><div>E</div>Rubber Feet (Please keep extra feet if there are any)</div> <div></div> <div>x8</div>

1

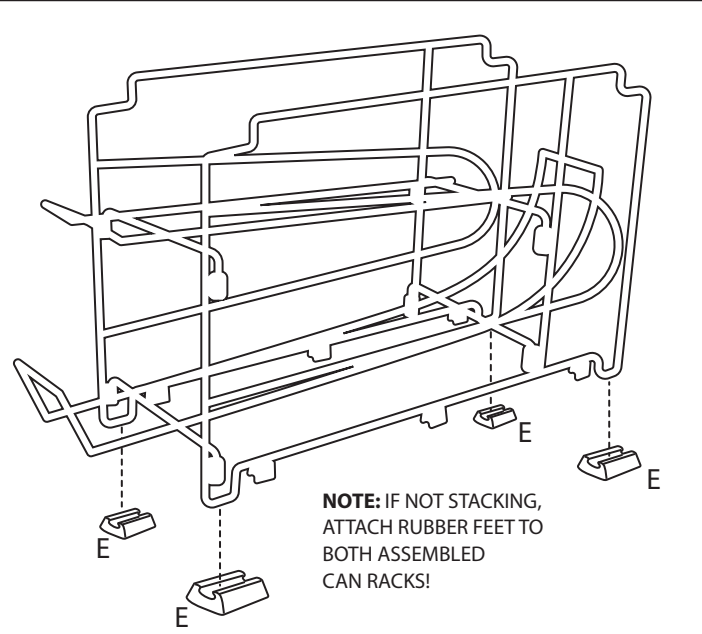

Step 1: Connect both side frames (A) & (B) by inserting the inner bottom frame (D) into place.

2

Step 2: Similarly to step 1, attach the inner top frame (C) down into place. Proceed to follow this step along with the previous step to assemble the second can rack.

3

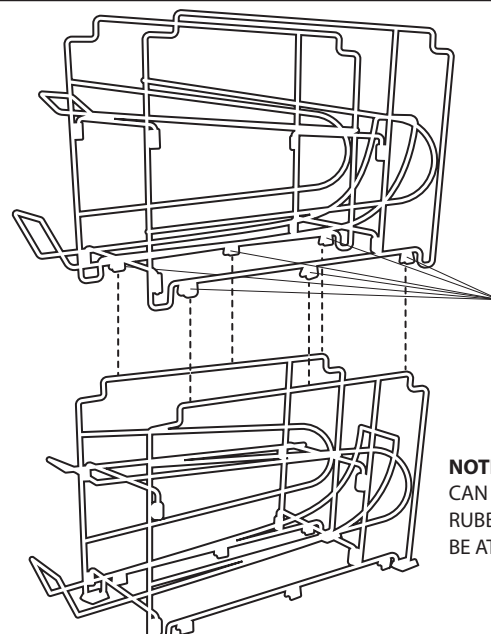

NOTE: IF NOT STACKING, ATTACH RUBBER FEET TO BOTH ASSEMBLED CAN RACKS!

Step 3: Proceed to secure the rubber feet (E) accordingly to the bottom of the assembled can rack(s).

4

OPTIONAL (IF STACKING)

NOTE: ONLY BOTTOM CAN RACK REQUIRES RUBBER FEET TO BE ATTACHED.

Step 4: If choosing to stack on top of one another, use the clips at the bottom top can rack to secure onto the bottom can rack. After making sure the can racks are secure, add any desired cans. Enjoy!
