Step2 Connecting the seat base to the backrest

During this step of the installation process, make sure to align each screw with its mounting hole first.

We recommend screwing each screw in slightly at first, and then tightening all the screws once they are all aligned with their mounting holes .

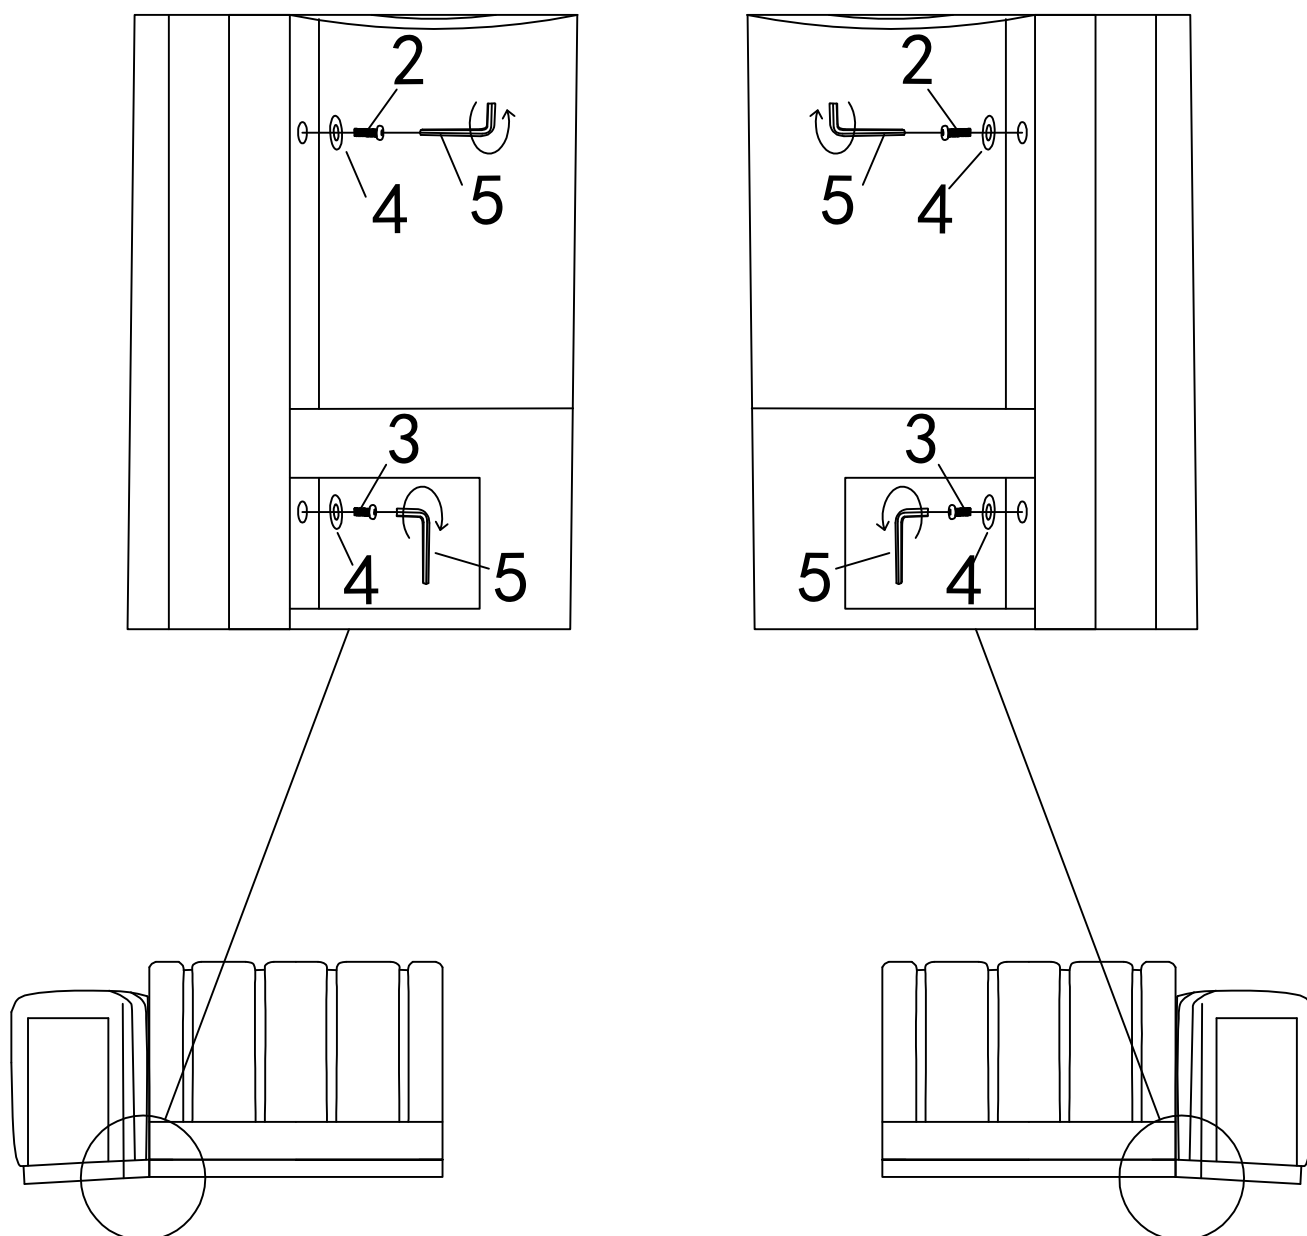

Step 3 Attach the armrests

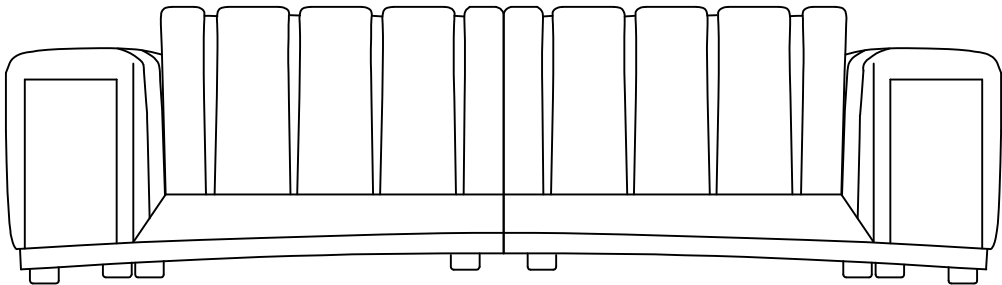

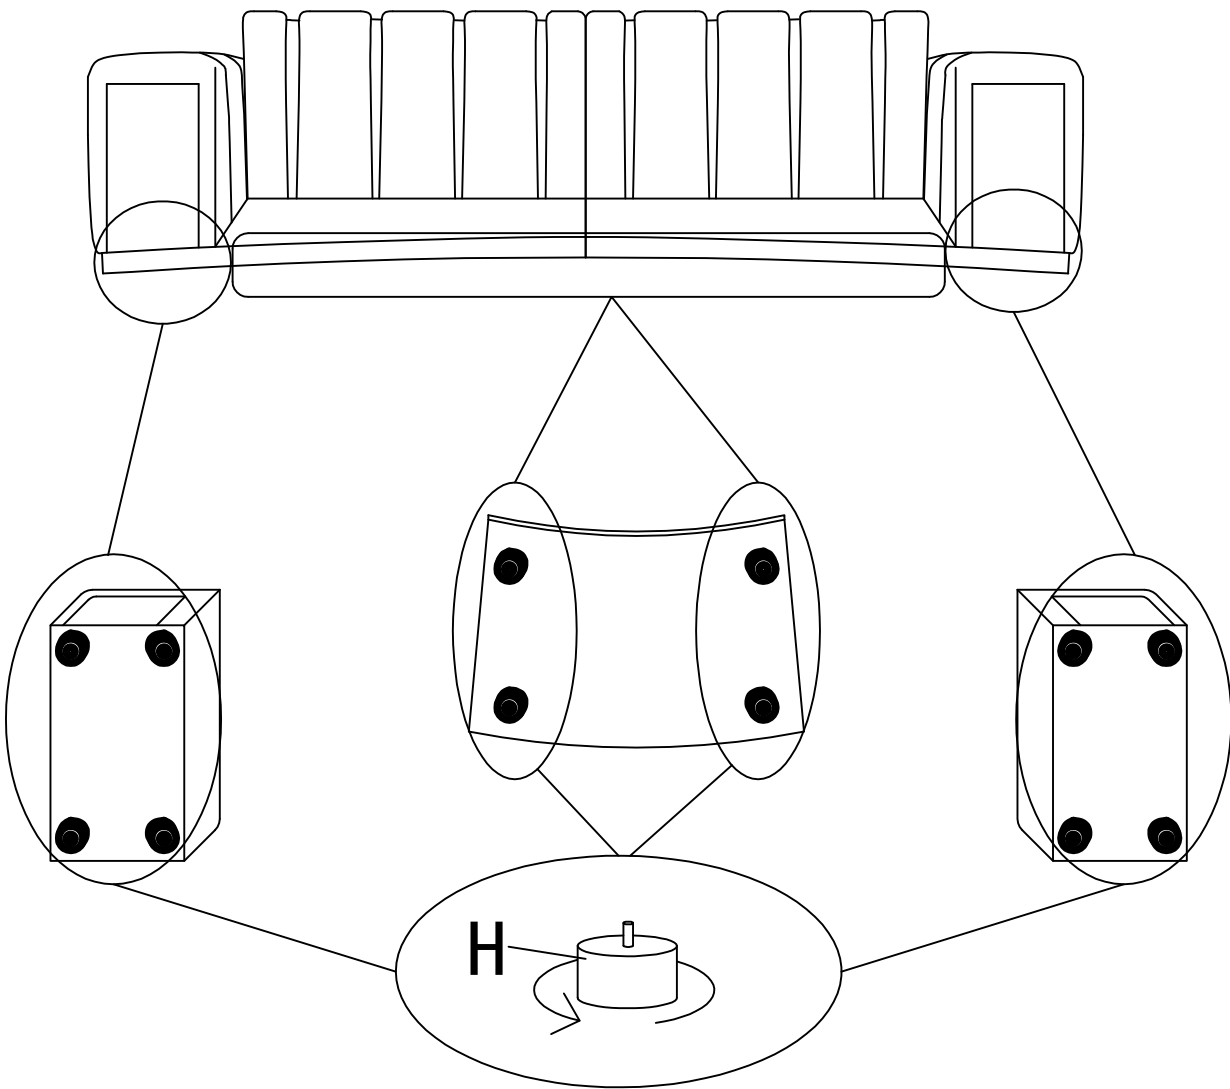

Step 4 Secure the armrest

Unzip the zipper at the bottom of the seat, align the mounting holes on the seat and armrests, and secure them with screws.

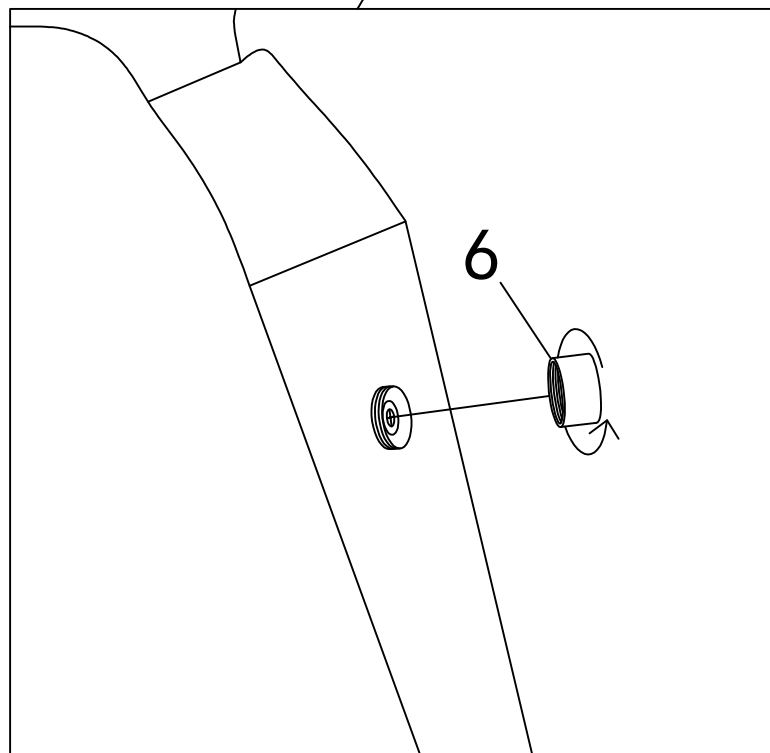

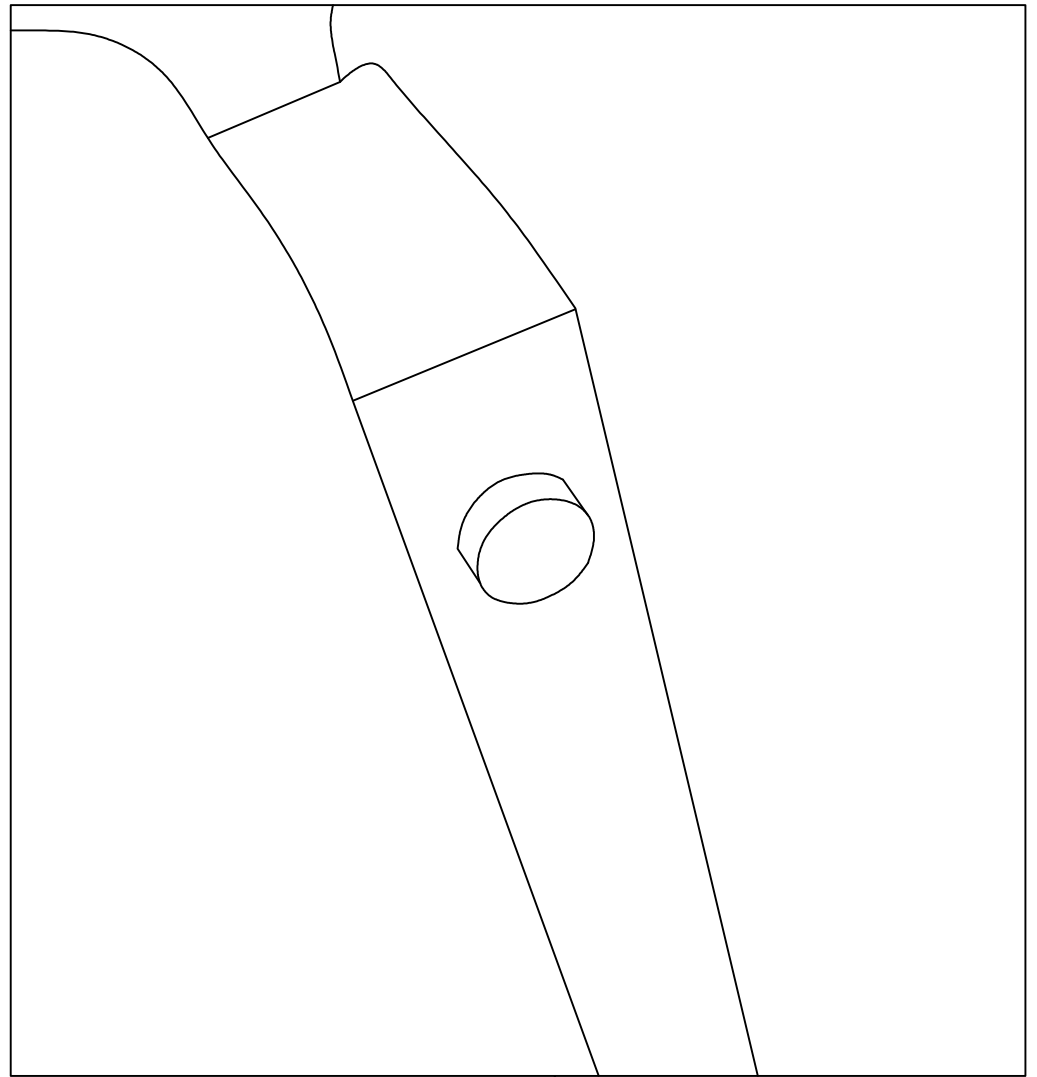

Note: Use the shortest screws in the mounting holes at the front of the armrest and the medium-length screws in the screw holes at the rear of the armrest.

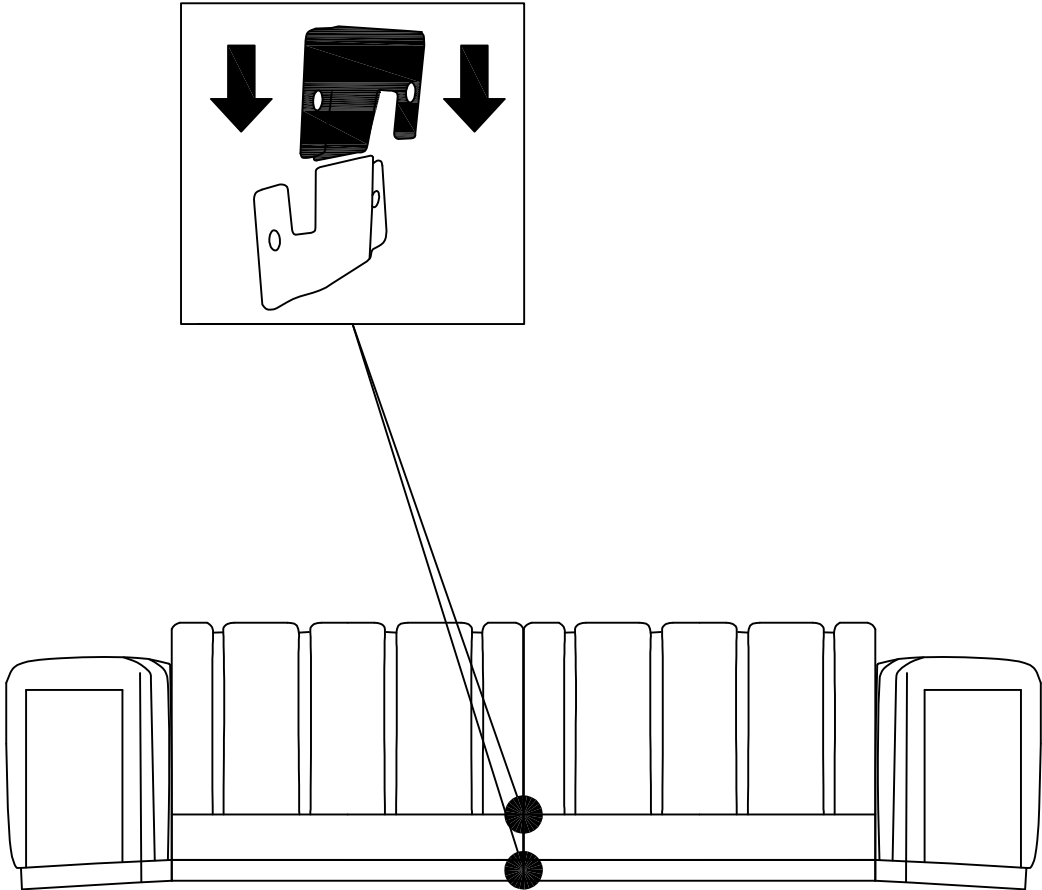

Step 5 Install the sofa legs

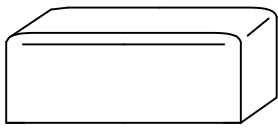

If a rivet falls off
the metal strip,
follow these
steps to tighten
it back into
place.

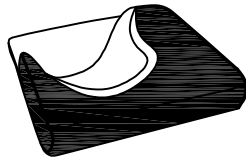

Step 6 Connect the seats

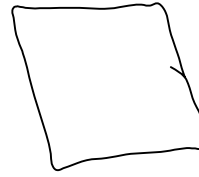

Step 7 Assemble the pillows and seat cushions
