Model:WY-48624

①

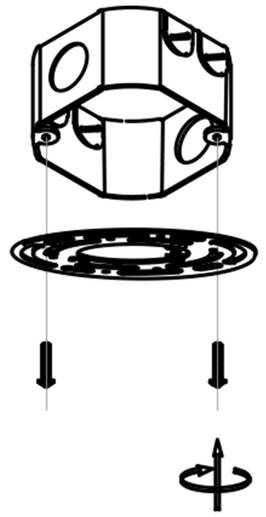

1. After opening the package, take out the lamp body and the glass. Place the glass on a flat surface to prevent breakage. Then install the lamp body

②

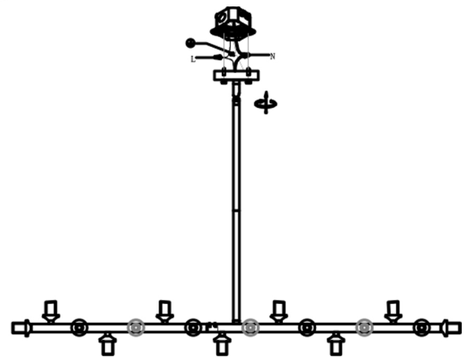

2.Connect and secure the two lamp body wires. Pass the main power cord through the hanging rod, then attach the rod to lamp body. Pass wires through the canopy, then connect lamp body to canopy

③

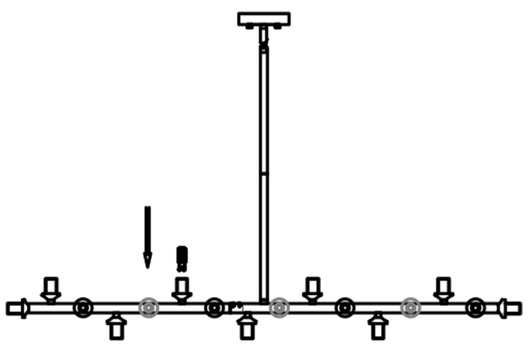

3.Secure the hanging board to the junction box with 2 long screws

④

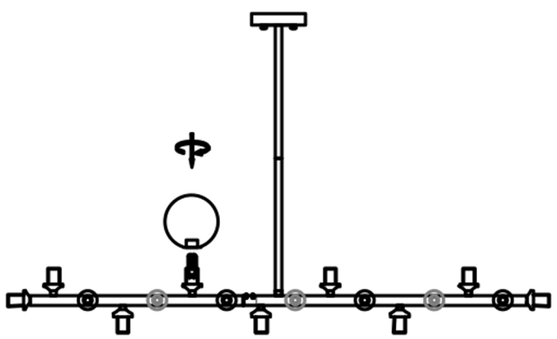

4.Connect the main wire, which is labeled with L and N (L represents positive pole, N represents negative pole). Connect L to the positive pole, N to the negative pole, and the ground wire. Cover the connection by tightening the wiring caps.To prevent electric shock, please do not expose the copper wire and install the lamp body on the hanging board, tightening it with flower branch screw.

⑤

5. Install a suitable G9 bulb.

⑥

6.Install glass lampshade
