## INSTALLATION STEPS

### Step1

Please unscrew the pre-installed screws and place the screws in a visible position.

### Optional for junction box connection

Junction box

Please use screws and washers (B) to connect the light stand to the junction box or the embedded nut.

### Optional for drywall or concrete wall connection

Wall

Please insert the expansion tube (A) beforehand and then attach the light stand to the wall using the screws (A) and washers (B).

### Step3

|             |  |         |  |       |
|-------------|--|---------|--|-------|
| Black       |  | live    |  | Black |
| White       |  | neutral |  | White |
| Copper Wire |  | Ground  |  | Green |

Please use insulated nylon clips to connect the fire and zero wires as shown.

**Step4**

Please Secure the lamp holder to the light stand using the screws removed in the first step.

**Step5**

Install the lampshade as shown

**Step6**

Install the bulb as shown

**NOTE:** Please note that bulbs are **NOT INCLUDED** in the package and the appropriate **BULB SIZE IS E26**.
