Application

Its applicable area is about 161.45-215.27ft² and its applicable height is about 9.18-11.48ft. It is suitable for dining rooms, kitchens, living rooms, entryways, stairways, clothing stores, coffee shops, bars, bedrooms, studies, etc.

Notes

1. You need 5 E26 bulbs with a single bulb less than 80W (not included), and please make sure the power is cut off before installation. To ensure your safety, we recommend that two people install this ceiling light together. Please install it by someone with an electrical license if necessary.
2. Please check the product size before ordering to make sure it fits your room. It is suitable for flat ceilings but not arched or sloped ceilings.
3. The product needs the reserved switch on the wall to control the light. If you need to adjust the brightness of the light, please install the dimmer switch on your own.
4. The sound may be like plastic when you knock on the lampshade, but it is the feature of the Tiffany glass. If you still have doubts, the glass is fire-proof and scratch-resistant, you can put it on fire for a few minutes, or use a knife to cut it as tests.

5. Please read the manual completely before use.
6. Please allow the slight color difference caused by the shooting light and 1-3cm error due to manual measurement, and make sure you do not mind before you order.
