

Give a dash of woodland charm to any vignette with this lovely deer figurine. Crafted of metal, it is finished in white with hammered details. Its legs are on a base so it can effortlessly stand.

Add it to your kitchen windowsill or the powder room vanity for a pop of whimsy. You can certainly sit this deer in any space, but why not let it put a winter-inspired touch on an existing ensemble? Try letting it complement boughs of pine on a rustic wood console table in the foyer or add it to the living room mantel for a lodge-chic accent to a flickering fireplace.

Indoor use only.
Wipe with dry cloth.
