Two bookcase installation diagrams
(Installation requirements: 2-3 people, one pair of Phillips screwdriver)

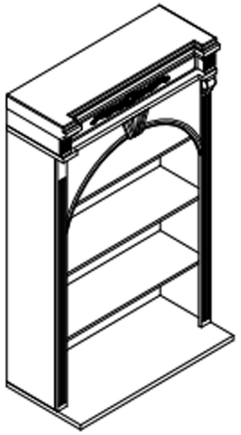

Step 1: Unpack and open the bottom part of the bookshelf

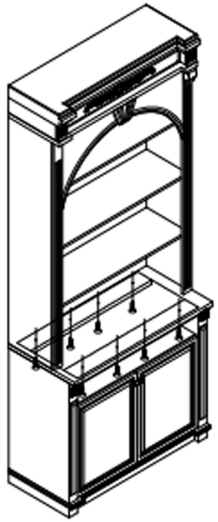

Step 2: Pull out the entire drawer

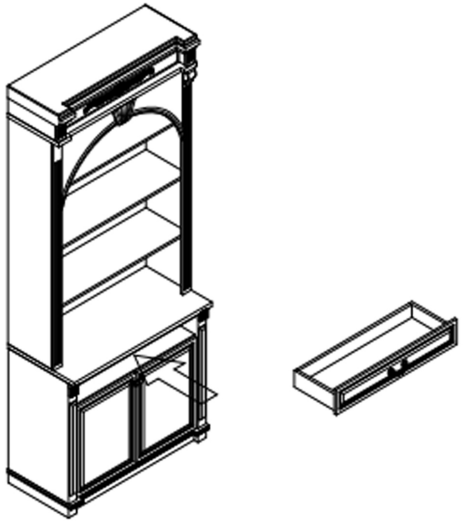

Step 3: Remove the upper part of the bookcase and place it on the base.

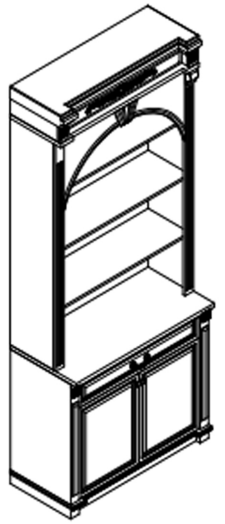

Step 4: Lock the upper part upwards from the pull bar at the bottom (through the hole)

Step 5: Install the drawer into the interior

Step 6: Adjust the door panel properly ensure the gaps around the bucket are evenly distributed, and complete the installation.
