## The Mini Gardens 3

D2532S50625-4116

The Mini Gardens 3 is part of a series of four breathtaking prints reminiscent of the work of the distinguished American artist Joan Mitchell who is renowned for her contributions to painting, printmaking, and other paper-based media. The Mini Gardens 3 is an abstract print that offers a remarkable fusion of contrasting colors that engage the senses. Strong brushstrokes add dimension while the bright color palette in Kelly green, coral pink, dove grey, and splashes of powder blue and vanilla join to create this captivating work.

A concentrated section taken from the larger work, The Garden 1, The Mini Gardens 3 uses abstract forms and a lively color palette to encourage a quiet reflection of one's relationship with the natural world. An original addition to the carefully curated ART by TA Collection.
