Be Mine 2

D2190S43786-3503

Be Mine I is a breathtaking closeup of a calla lily reminiscent of the iconic work of photographer Robert Mapplethorpe. This image offers a sense of sensuality, elegance, and poignancy. The focus is on form, texture, and the interplay of light and shadow that reveals the essence of the calla lily as both a symbol of purity and an object of desire. At once, the image is both sculptural and painterly. These striking contrasts not only emphasize the organic form of the calla lily but also impart a sense of depth and dimensionality, transforming the two-dimensional photograph into an immersive, almost tactile experience.

Part of the carefully curated ART by TA collection, Be Mine I offers a discreet glimpse into feelings of love and intimacy.
