9.Be careful to avoid collisions

Installation of Cams and Pins

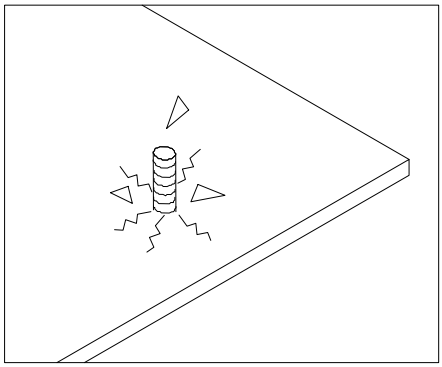

Screw the pin into the hole. To set the cams correctly, ensure that the arrow on the cam is opening o the hole of the pin it is locking. Lock the cam by tturning the cam head with a screwdriver until it is tightened. Please do not use an electric screwdriver to assemble the unit.

1.Matters needing attention

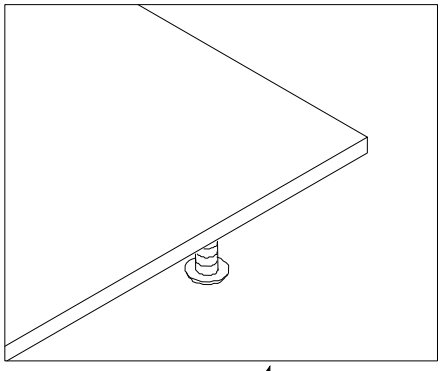

Be sure to use the proper screws to avoid damaging the parts

×

Wrong screws can cause the plank to crack

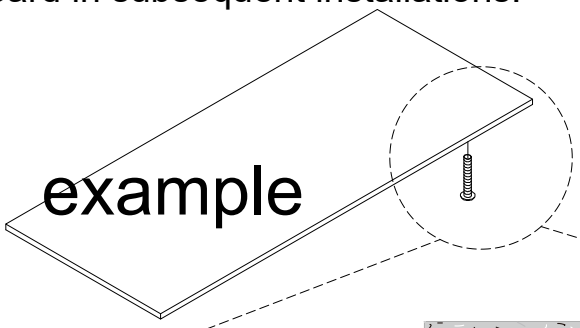

√

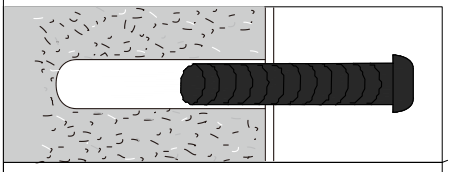

The right screw is the right size

Matters needing attention

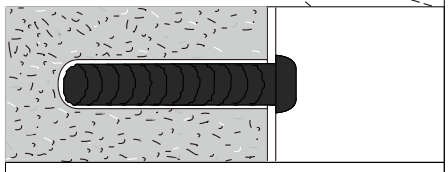

(1)When installing the screws in the installation step,
the screws do not need to be tightened.
After this installation step is confirmed and the holes are aligned,
then tighten all the screws.

(2)If the screws are tightened during the installation process,
it will cause problems such as misalignment of the screw
holes and misalignment of the board in subsequent installations.

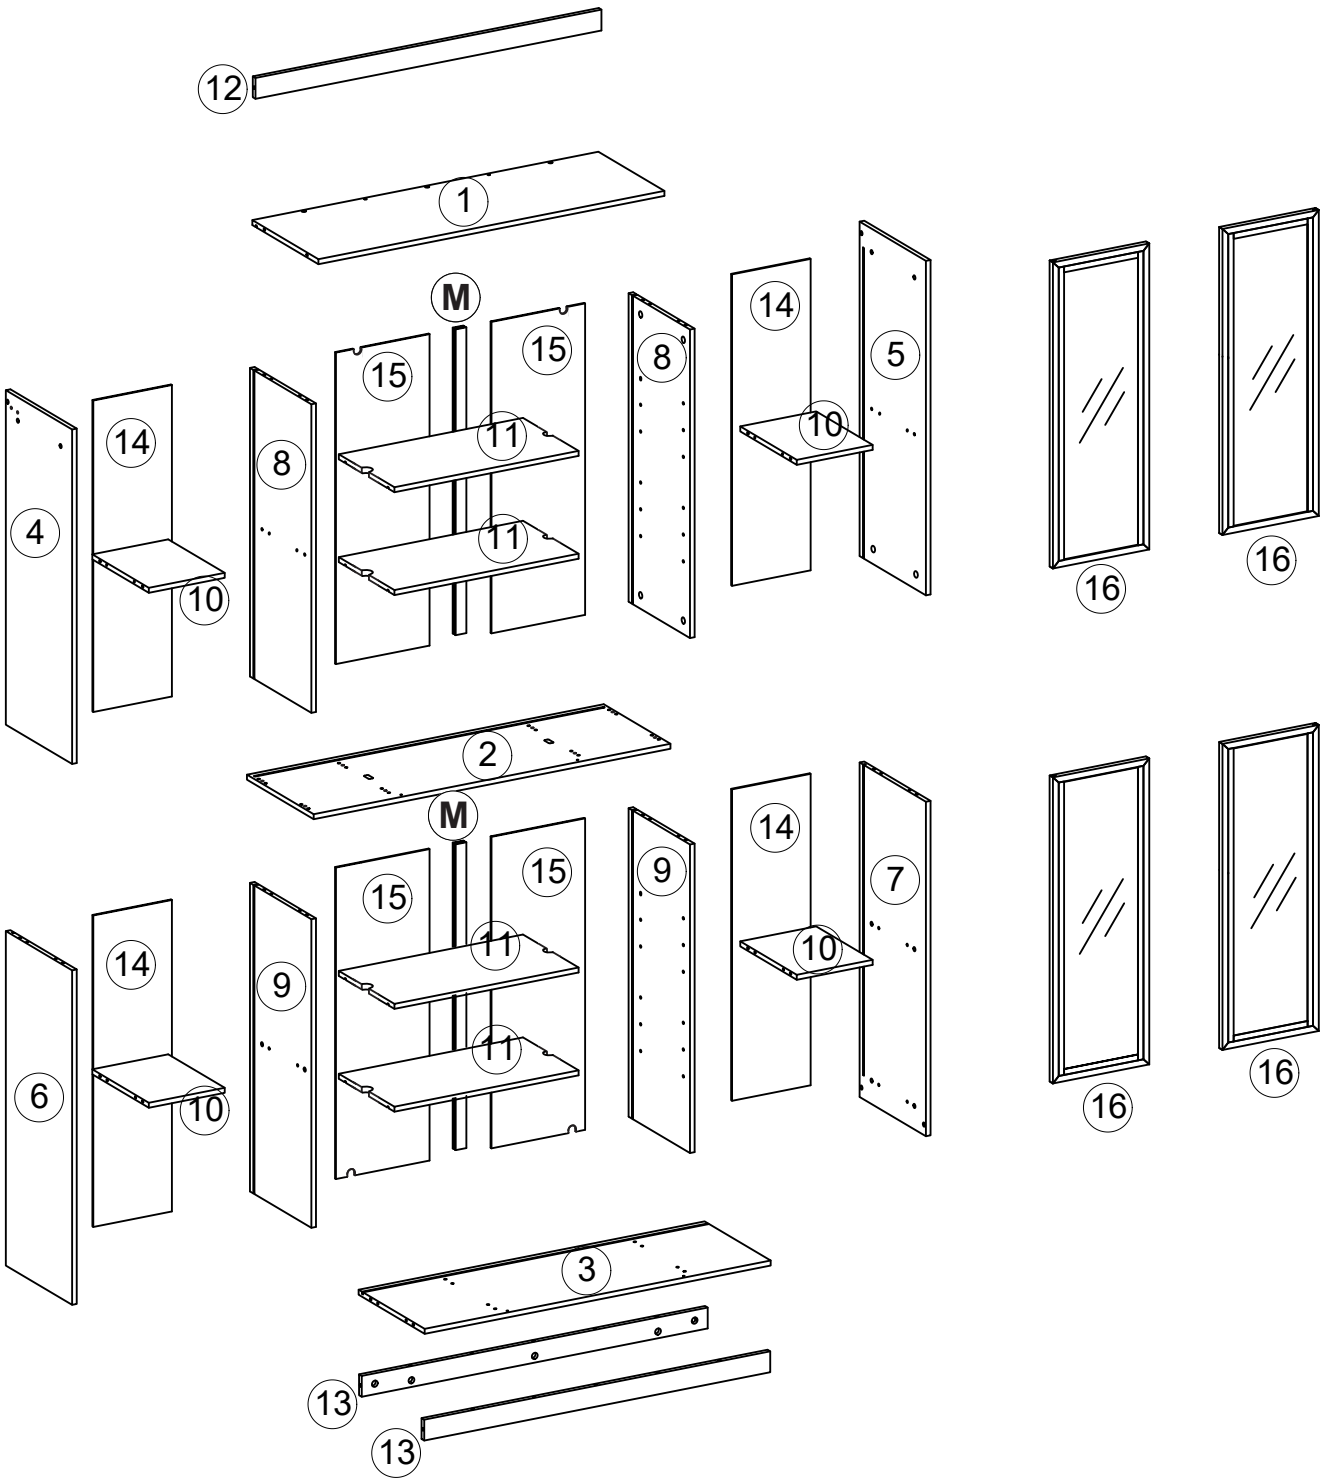

Do not tighten the screws

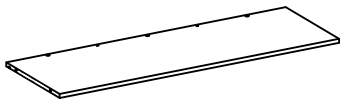

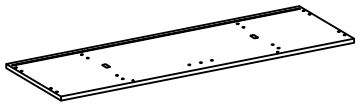

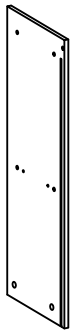

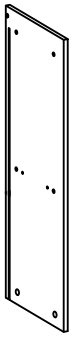

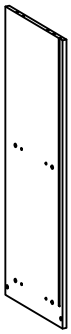

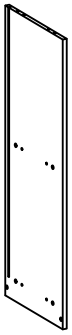

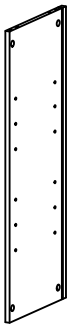

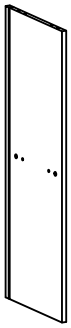

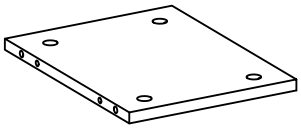

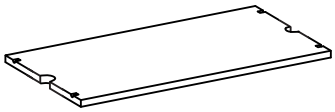

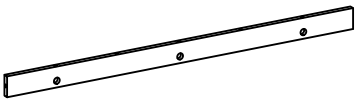

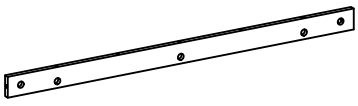

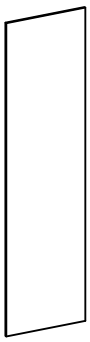

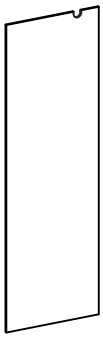

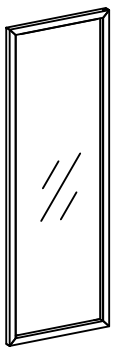

Screw down
