

Assembly Instructions for Model 2207401873

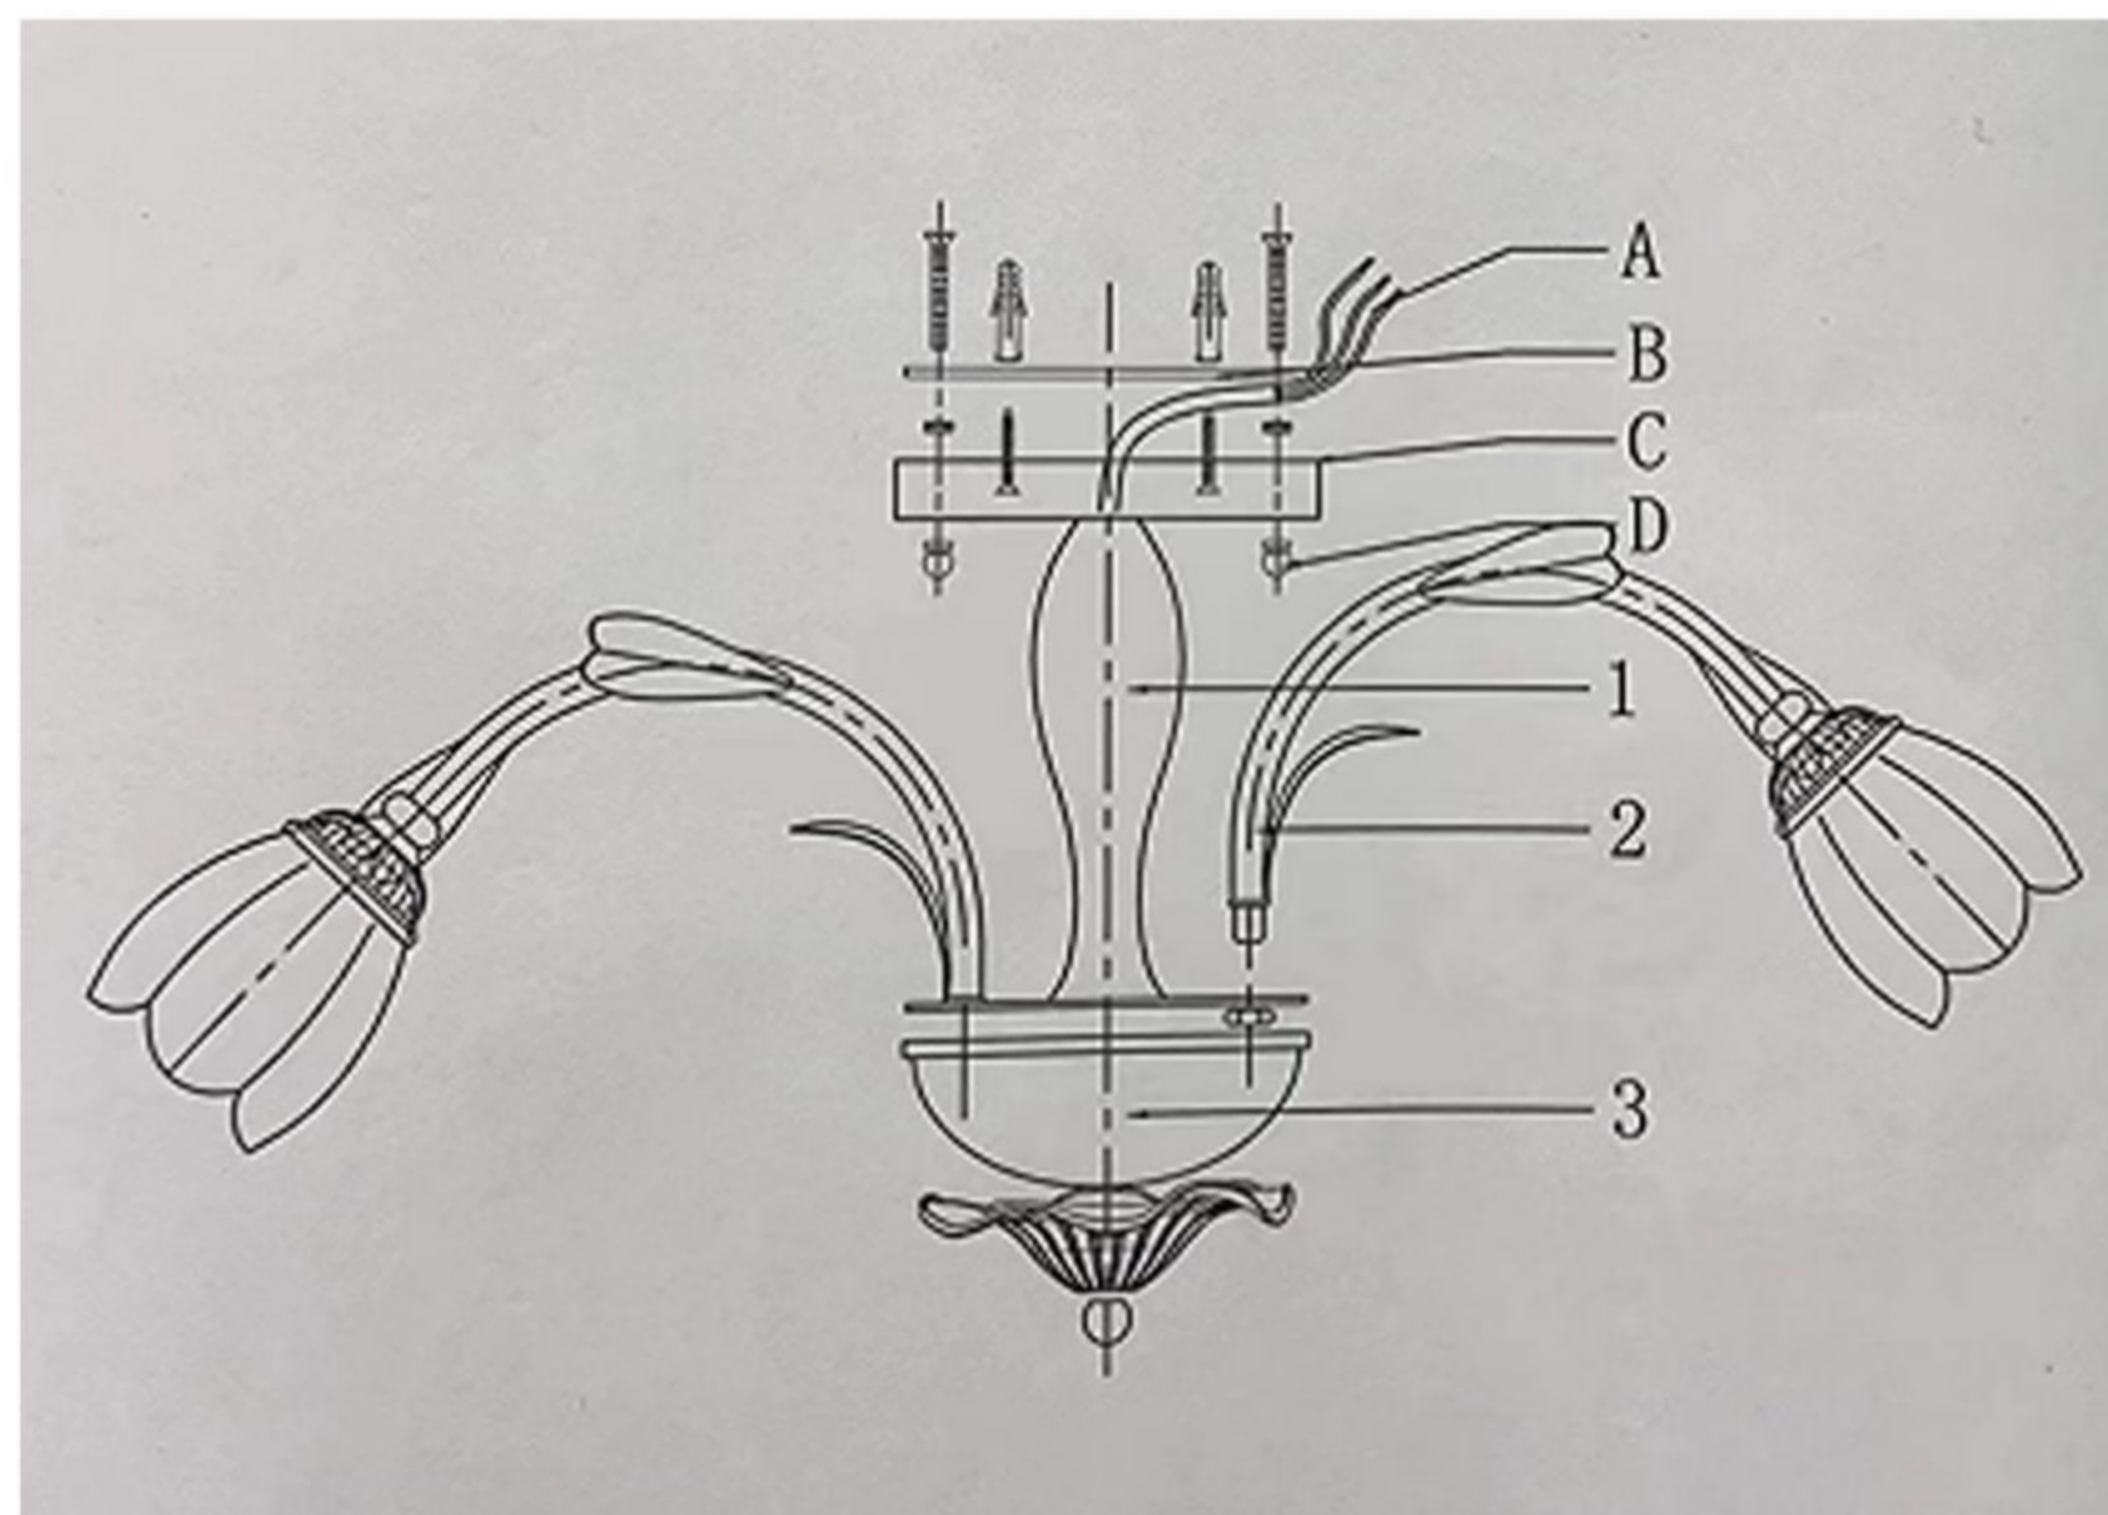

Assembly Method

Ceiling Light Installation Instructions

Open the box and check that the light fixture and mounting accessories are complete.

1. Assemble the light fixture as shown and connect the wiring.
2. Install the mounting plate assembly (B) and secure it to the ceiling.
3. Secure the light fixture to the mounting plate assembly (B) and check that it is secure.
4. Use the connector (A) to connect the ceiling power cord to the light fixture cord (positive to positive, negative to negative, and ground to ground), ensuring that no wires are exposed.
5. Secure the ceiling plate (C) with the nut (D).
6. Check for proper installation, install the light bulb, and connect the power supply.

The installation is complete.

Your fixture is now assembled and ready to use.
