

## INSTALLATION INSTRUCTIONS

### LED MIRROR LIGHT

120V 60Hz AC/Dimmable

#### READ AND FOLLOW SAFETY INFORMATION

**CAUTION** - Turn off the main power at the circuit breaker before installing and servicing the fixture to prevent possible injury from electric shock.

All electrical connections must be in accordance with local and National Electrical Code (N.E.C.) standards. If you are unfamiliar with proper electrical wiring connections, obtain the services of a qualified electrician.

### INSTALLATION & ASSEMBLY

1. Mark two hole locations on the wall that align with hole distance in mounting plate [2]. Drill two holes with 5/16" size drill bit at the marked locations. Insert drywall anchors [1] into each drilled mounting hole.
2. Align the holes in the mounting plate [2] with drywall anchor [1], then insert drywall anchor screw [3] into drywall anchors [1] to make the mounting plate [2] level with the wall.
3. Make wire connections . Connect black supply wire to black fixture wire, connect white supply wire to white fixture wire by using wire nuts [5].
4. Hang the fixture body [4] over the mounting plate [2].

#### Care Instructions:

**WARNING:** Always be certain that electric current is turned off before cleaning.

Only a soft damp cloth should be used. Harsh cleaning products may damage the finish.
