Expansion screws can be threaded through pre-drilled holes in the safe to secure it anywhere.

THE FIRST TIME OPENING

1.Insert the key		2.Turn the handle	
3.Insert 4 AA alkaline batteries (not included)		Please do not use rechargeable or different brands of batteries	

PERSONAL PASSWORD SETTING

Original factory password: 123456

This gun safe can be set with two sets of passwords

SET UP THE FIRST PASSWORD
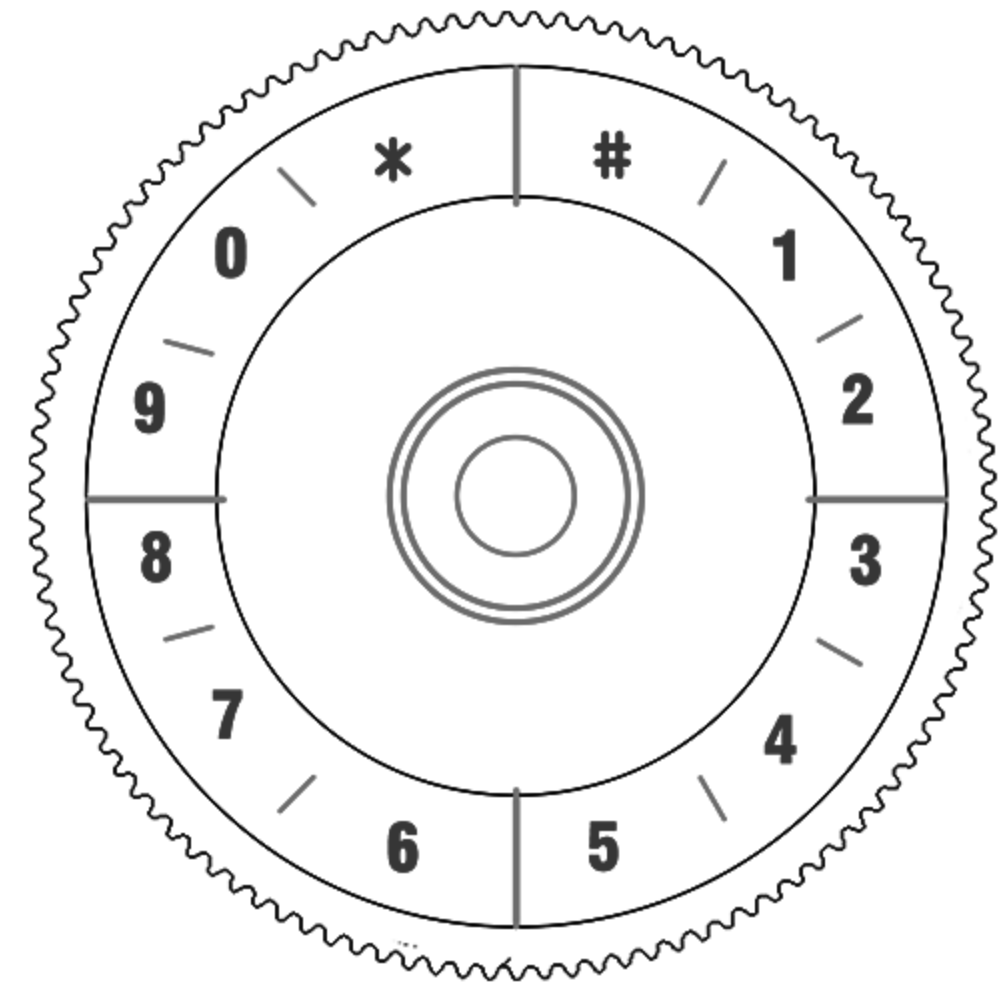

1. In the open state, press the green setting

button inside of the gun cabinet, the buzzer

will sound once and the keyboard light on.

2. Enter any new 3-12 digits code, press the "#"
 button to confirm. The buzzer will sound once
and the blue indicator light will be off. Password is set successfully.

Note: After setting your password, please test the new password to ensure it is valid.

SET UP THE SECOND PASSWORD

1.In the open state, press '00', the keyboard light on. Then press the green setting
 button inside the door.

2.Enter another new code within 3-12 digits, and then press "#" key to confirm.
The buzzer sound and the blue indicator light will be off, the second code is set
successfully.

HOW TO OPEN THE GUN SAFE

1.Touch any code on the keyboard to wake up the keyboard, and enter the
password you set.

2. Press the "#" key to confirm, the blue indicator light is on, and the buzzer beeps
twice, indicating that the password is entered correctly.

3.Turn the handle clockwise.

NOTE: Input wrong password, The keyboard will sound beep for 4 times, and the
alarm sound can only be eliminated after entering the correct password.

SYSTEM INITIALIZATION

Press the green setting button for 5 seconds, the system will restore the initialized

settings and clear all passwords.

LOW BATTERY ALERT

1. The gun cabinet uses four 1.5V alkaline batteries, if the voltage is insufficient to open the door after the continuous reminder of "beep" twice, the power indicator light flashes for about 30 seconds before shutting down, reminding you of the low battery. You need to replace the batteries promptly.

2. If the battery voltage is insufficient, you can use the emergency power supply or mechanical emergency key to open the safe.

* This electronic lock has the function of no power protection code never disappear.

MUTE MODE

1. Tap to activate the touch screen, enter "11#"

2. The buzzer "beep--" a long sound, indicate the mute and non-mute mode set successfully.
