One of them is a backup

J*1

Hook

ASSEMBLY INSTRUCTIONS

step 1

Take the cushion out of the compression bag and allow it to recover for a period of time, it takes about 24 hours for the cushion to fully recover, and you can slap the cushion to speed up the recovery.

Be sure to check all packing material fitting the packing list. Be careful for small parts, which may have come loose inside the carton during shipment.

step2

Remove the plastic cover from the sofa leg screw

Place the bottom of the sofa frame upward on a clean place, align the screw of the wooden foot with the screw hole reserved at the bottom of the sofa and rotate clockwise to install the wooden foot firmly.

step3

Place the seat frame on the side on a clean plane, make the side with four holes of the seat frame is close to the backrest, make the assembly holes of the seat frame are aligned with the assembly holes of the backrest (when the backrest and the seat frame are aligned on both sides, the assembly holes of the seat frame and the backrest are aligned), and use a screw to tighten the assembly of the backrest and the seat frame. (Screw each screw to 50% first, and when all 4 screws are screwed on, use the Allen key to completely tighten all screws.)

step4

Insert the metal pin of the headrest into the preset assembly hole at the top of the backrest.
Headrest is not adjustable height.

step5

ARM CHAIR+ARMLESS COMBINATION

ARMLESS+CHAISE COMBINATION

One hook in each seat spare parts bag
if you are using a unilateral sofa, this hook is not useful.

If you purchased the armchair and need to use the armchair and armless sofa together, please place the bottom of the sofa upward on a clean plane before the rod pillow at the top of the back is inserted, align the left and right unilateral sofa before and after and try to keep it close, use the metal hook in the packing box, seize the combined sofa 20 cm away from the front and back of the sofa, and then tighten the screw. Turn the assembled sofa tightly together, face up, and insert the cylindrical pillow.

Besides, If you purchased the chaise, you can be assembled in the same way. And you need 2 hooks to connect them together so that keep them stable.

Since there is a sponge on the outside of the wooden frame of the sofa, the two parts need to be squeezed tightly when fixed with the buckle.

step 6

Clean the excessive thread ends on the sofa frame. Tidy up the cushion and pillow of the sofa to make it beautiful and the assembly is completed.
