INSTRUCTIONS FOR USE

Foldable Pet Bath Tub

1. Folding

The folding design is easy to fold up for compact store.
Drain completely and fold along the edges.

2. Water Storage Capacity

The minimum water level should be higher than the drainage outlet.

Caution:

Please make sure your dog is in a healthy and stable state. If your dog is sick or injured, please consult your veterinarian in advance.

Please make sure that your dog will not be shocked when entering cold water. You should slowly cool the dog's paws and legs until all his fur is soaked.

Supervise your pets (Dog) when they are playing or bathing.

For hygienic reasons, the pool should be regularly cleaned.

Doggy Pool - Maintenance Guides:

- Always set the pool up on a smooth, level surface. Make sure that there are no sharp rocks or similar such items underneath the pool.
- Do not exceed the max water level. Recommend to fill water 60%-80%.
- To empty the pool, simply use the existing drain valve water level goes under the valves, please lift the pool a bit to drain excessive water. Do not lift the pool up with too much water in it to avoid tears.The pool must not be tipped over.
- Do not allow your pets (Dog) to chew the pool edge or stand on it.
- Please TRIM your dog's nails before using the pool.
- At temperatures below 15°C, the pool should not be set up or folded together.
