

ChooChoo

SC2502

## Before You Start

-  Please read all instructions carefully.
-  Retain instructions for future reference.
-  Separate and count all parts and hardware.
-  Read through each step carefully and follow the proper order.
-  We recommend that, where possible, all items are assembled near to the area in which they will be placed in use, to avoid moving the product unnecessarily once assembled.
-  Always place the product on a flat, steady and stable surface.
-  Keep all small parts and packaging materials for this product away from babies and children as they potentially pose a serious choking hazard.

## Assembly Instructions

We have designed our furniture with you, the customer in mind. Our clear, easy to follow step by step instructions will guide you through the project from start to finish. Feel confident that this will be a fun and rewarding project. The final product will be a quality piece of furniture that will go together smoothly and give years of enjoyment.

|                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                                                            |
|                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                                                            |

Note: Please do not use any power tools. Use of power tools may cause damage and void manufacture warranty.

## Instructions For Fastening Cam Bolt and Cam Lock

CAM BOLT

CAM LOCK

### Cam Bolt

Place Cam Bolt on the designated pre-drilled hole on the panel. Use a Phillips Screwdriver to screw in Cam Bolt vertically until shoulder is snug and flushed with panel. Do not over-tighten or under-tighten Cam-bolt. See illustrations below.

Shoulder is flushed  
(on the same level)  
with the panel.

Shoulder is  
above the panel.

### CAM-LOCK

Align the arrow on the Cam-lock to the  
Cam-bolt head and insert the Cam-lock.

Use a Flat-head Screwdriver to turn Cam Lock clockwise to lock onto the head of the Cam Bolt. Turn until it is snug (about a half turn) – over-tightening could damage Cam Lock and/or Cam Bolt.

Step 1

| Hardware Needed |                                                                                     |    |
|-----------------|-------------------------------------------------------------------------------------|----|
| A               |  | X8 |
| D               |  | X4 |

Step 2

| Hardware Needed |                                                                                       |    |
|-----------------|---------------------------------------------------------------------------------------|----|
| A               |  | X8 |
| D               |  | X4 |

Step 3

| Hardware Needed |                                                                                     |    |
|-----------------|-------------------------------------------------------------------------------------|----|
| B               |  | X4 |

Step 4

| Hardware Needed |                                                                                       |    |
|-----------------|---------------------------------------------------------------------------------------|----|
| E               |  | X2 |
| F               |  | X1 |

Step 5

| Hardware Needed |                                                                                     |    |
|-----------------|-------------------------------------------------------------------------------------|----|
| B               |  | X2 |

Step 6

Step 7

| Hardware Needed |                                                                                     |    |
|-----------------|-------------------------------------------------------------------------------------|----|
| B               |  | X6 |

Step 8

| Hardware Needed |                                                                                       |    |
|-----------------|---------------------------------------------------------------------------------------|----|
| E               |  | X2 |
| F               |  | X1 |

Step 9

| Hardware Needed |                                                                                     |    |
|-----------------|-------------------------------------------------------------------------------------|----|
| B               |  | X2 |

Step 10

| Hardware Needed |                                                                                       |    |
|-----------------|---------------------------------------------------------------------------------------|----|
| B               |  | X2 |

Step 11

Step 12

Hardware Needed

|   |                                                                                       |    |
|---|---------------------------------------------------------------------------------------|----|
| K |  | X1 |
| S |  | X1 |

Tip:Iron Foot (U)height adjustable

Step 13

Hardware Needed

|   |                                                                                     |    |
|---|-------------------------------------------------------------------------------------|----|
| D |  | X6 |
| K |  | X6 |

Step 14

Hardware Needed

|   |                                                                                       |    |
|---|---------------------------------------------------------------------------------------|----|
| A |  | X4 |
| D |  | X4 |

Step 15

| Hardware Needed |                                                                                     |    |
|-----------------|-------------------------------------------------------------------------------------|----|
| B               |  | X4 |

Step 16

| Hardware Needed |                                                                                       |    |
|-----------------|---------------------------------------------------------------------------------------|----|
| A               |  | X8 |

Step 17

Hardware Needed

|   |                                                                                     |    |
|---|-------------------------------------------------------------------------------------|----|
| B |  | X8 |
|---|-------------------------------------------------------------------------------------|----|

Step 18

Step 19

| Hardware Needed |                                                                                     |    |
|-----------------|-------------------------------------------------------------------------------------|----|
| E               |  | X4 |
| F               |  | X2 |
| M               |  | X2 |
| L               |  | X4 |

Step 20

| Hardware Needed |                                                                                       |    |
|-----------------|---------------------------------------------------------------------------------------|----|
| A               |  | X6 |

Step 21

| Hardware Needed |                                                                                     |    |
|-----------------|-------------------------------------------------------------------------------------|----|
| D               |  | X6 |

Step 22

| Hardware Needed |                                                                                       |    |
|-----------------|---------------------------------------------------------------------------------------|----|
| B               |  | X6 |

Step 23

| Hardware Needed |                                                                                     |     |
|-----------------|-------------------------------------------------------------------------------------|-----|
| G               |  | X12 |
| C               |  | X24 |

Step 24

| Hardware Needed |                                                                                       |    |
|-----------------|---------------------------------------------------------------------------------------|----|
| H               |  | X6 |
| I               |  | X6 |
| J               |  | X6 |
| C               |  | X6 |

Step 25

| Hardware Needed |                                                                                     |    |
|-----------------|-------------------------------------------------------------------------------------|----|
| C               |  | X8 |

Step 26

| Hardware Needed |                                                                                       |     |
|-----------------|---------------------------------------------------------------------------------------|-----|
| C               |  | X16 |

Step 27

| Hardware Needed |                                                                                     |     |
|-----------------|-------------------------------------------------------------------------------------|-----|
| Q               |  | X16 |
| R               |  | X16 |

Tip: To increase stability  
please lock the rear  
pane hooks at a right angle  
position.

Step 28

| Hardware Needed |                                                                                     |    |
|-----------------|-------------------------------------------------------------------------------------|----|
| N               |  | X2 |
| O               |  | X2 |

Step 29

Hardware Needed

|   |                                                                                     |    |
|---|-------------------------------------------------------------------------------------|----|
| P |  | X8 |
|---|-------------------------------------------------------------------------------------|----|

Step 30

Hardware Needed

|   |                                                                                       |    |
|---|---------------------------------------------------------------------------------------|----|
| P |  | X8 |
|---|---------------------------------------------------------------------------------------|----|
