

ASSEMBLY INSTRUCTION

BEFORE YOU START

1. Read and Check All Parts First

Please read all instructions carefully before assembly. Check that all parts, panels, hardware, and accessories are included before beginning. To avoid scratches or damage, assemble the product on a clean, soft, and flat surface such as carpet, cardboard, or a blanket.

2. Two Adults Are Recommended

Two adults are recommended for assembly. Some panels may be large, heavy, or fragile. Handle glass, acrylic, mesh, and wood panels with care. Do not force any part into place. If holes do not line up, slightly loosen nearby screws, adjust the frame, and try again.

3. Do Not Fully Tighten Too Early

During assembly, do not fully tighten all screws, bolts, or cam locks until the main frame is fully aligned. Once the product is square, level, and stable, tighten all hardware securely. Over-tightening may damage panels, glass, acrylic parts, or pre-drilled holes.

4. Keep Children and Pets Away

Keep children and pets away from the assembly area. Do not allow children to climb, sit, shake, or stand on the product. This product should be placed on a flat, stable, and level surface before use.

5. Inspect Glass or Acrylic Panels

If this product includes glass or acrylic panels, inspect them before assembly. Do not use the product if any panel is cracked, chipped, or damaged. When installing clear panels, tighten screws only until secure. Do not over-tighten.

6. Keep Electrical Parts Dry

If this product includes a built-in outlet or power strip, keep all electrical parts dry and away from direct water contact. Always route cords safely and avoid placing cords where they may be pinched, pulled, or exposed to water. Do not overload the outlet. Unplug electrical devices before cleaning or moving the product.

7. Final Check Before Use

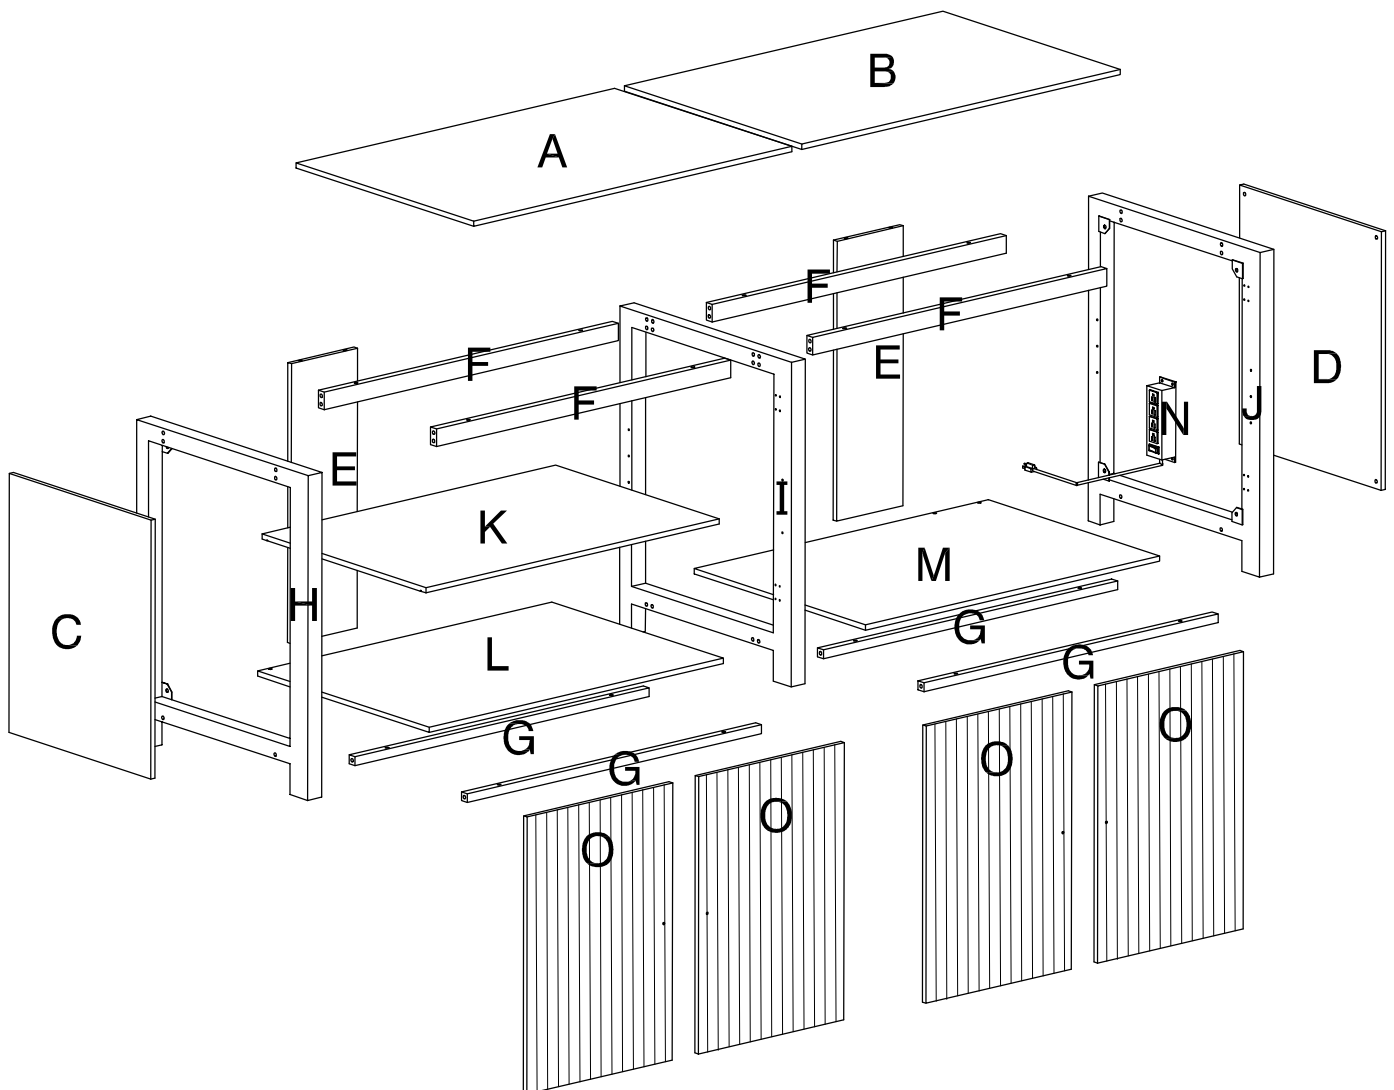

Before placing an aquarium, reptile, substrate, decorations, lamps, or accessories inside or on top of the product, make sure the entire unit is fully assembled, level, stable, and all doors, locks, latches, tracks, and panels are properly installed.

8. Aquarium and Reptile Use Notes

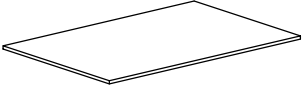

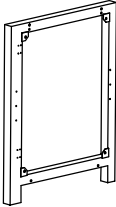

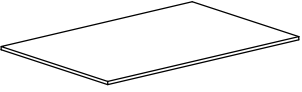

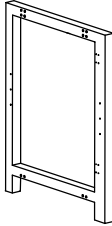

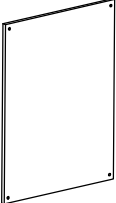

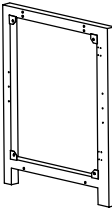

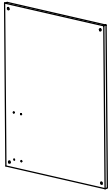

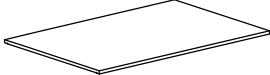

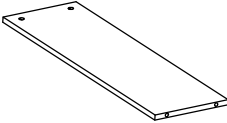

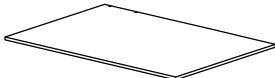

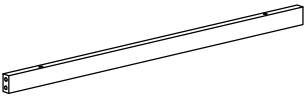

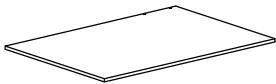

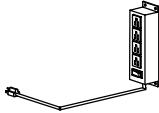

For aquarium use, always center the tank on the top surface and make sure it is fully supported. For reptile use, check that all doors close properly, locks work correctly, the top mesh or lid is secure, and there are no large gaps that may allow pets to escape.

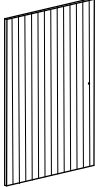

ASSEMBLY DIAGRAM

1. Refer to the exploded view below for the approximate location of each component.
2. Each part is labeled for easy identification.
3. Follow the assembly instructions carefully to ensure proper installation.

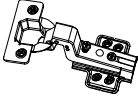

PARTS LIST

No.	Description	QTY	No.	Description	QTY
A		1	H		1
B		1	I		1
C		1	J		1
D		1	K		1
E		2	L		1
F		4	M		1
G		4	N		1

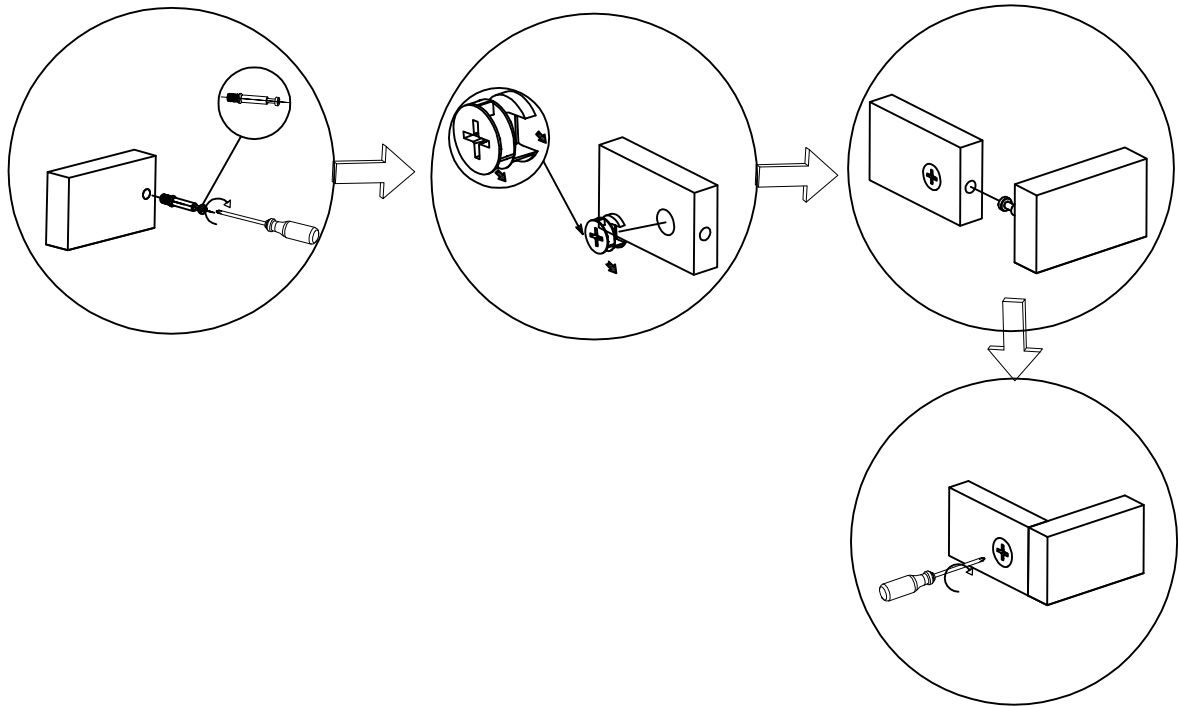

No.	Description	QTY	No.	Description	QTY
