

## PREPARATION before INSTALLATION:

1. If an existing fixture is being replaced, remove it and note to which wire in the outlet box the original fixture was attached.
2. Before discarding the carton, double-check the packaging to make sure all parts have been found.
3. This fixture was designed to be mounted on an octagon outlet box. The box must be securely mounted to the structure of the building.

## IMPORTANT:

1. **WARNING** - Disconnect power before relamping or wiring the fixture. Turn off the entire electrical circuit to which the lighting fixture is attached.
2. Installation and maintenance of this fixture should be completed by a licensed electrician.
3. Failure to install the fixture correctly could result in serious injury or death.
4. Read all instructions before starting installation.

## INSTALLATION STEPS:

1. Connect both ends of the chain to the hook, and pass the wire through the chain until the center hole of the canopy.
2. Secure the mounting bracket to the junction box using screws.
3. Connect the main line and ground cable of the lamp body to the cables reserved on the junction box.
4. Place the canopy on the cable box and tighten it with decorative nuts
5. Install the bulbs. (Bulb not included).
6. Tighten the round tube onto the lamp body
7. Pass the glass through the threaded pipe, fix it with nuts, cover the iron cover and fix it with a ball.
