

The #1 Walk-In Bath Manufacturer In America

11 Years in the Business and Never a Bad Review

# **OUR MISSION**

To enhance the level of gracious living for all who are touched by our solutions

There is no single better product for the Home that can have such an immediate impact, and in some cases, in such a Powerful Way.

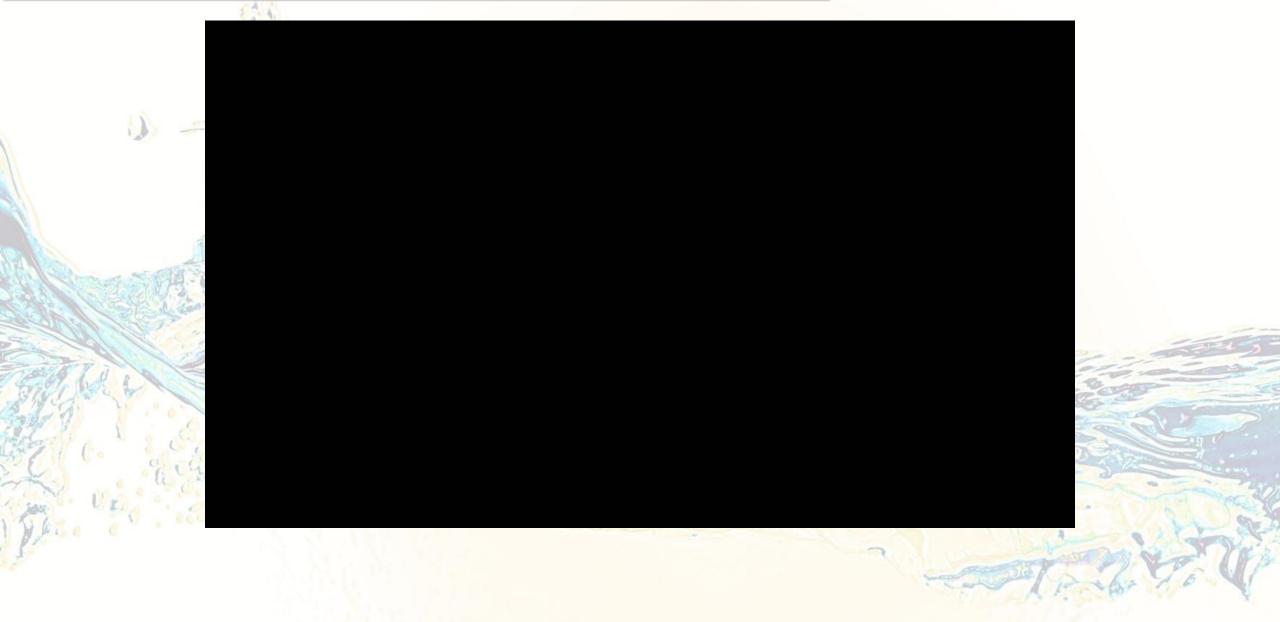

# ONLY TWO CHOICES

"To accept your Health conditions as they exist or accept the responsibility for changing them."

- Nancy Reagan

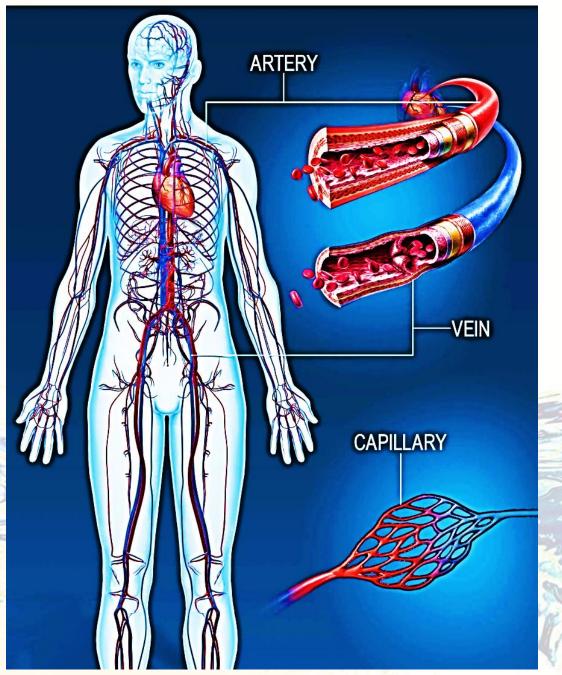

# WHAT WOULD YOU CHOOSE?!

# GET MOVING

# MOVEMENT IS MEDICINE

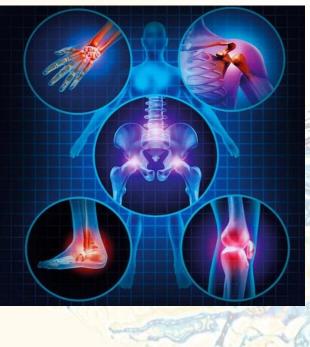

# <u>PAIN</u>

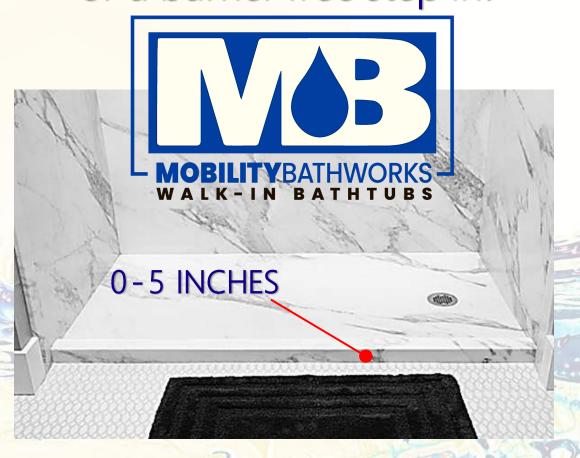

The traditional bathtub can present a real problem as <u>YOUR</u>
<u>MOBILITY NEEDS ARE CHANGING</u>.

Pick a low threshold step or a barrier free step in!

### SAFETY AND COMFORT IS NOT A QUESTION ANYMORE!

Ease to use shower controls.

Standard fold down seat let you sit with ease.

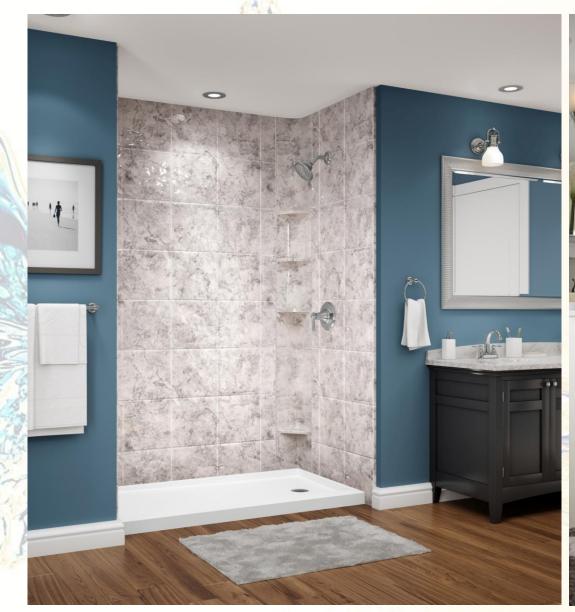

Low barrier entry & exit with entryways of between only <u>0 and 5</u> inches in height.

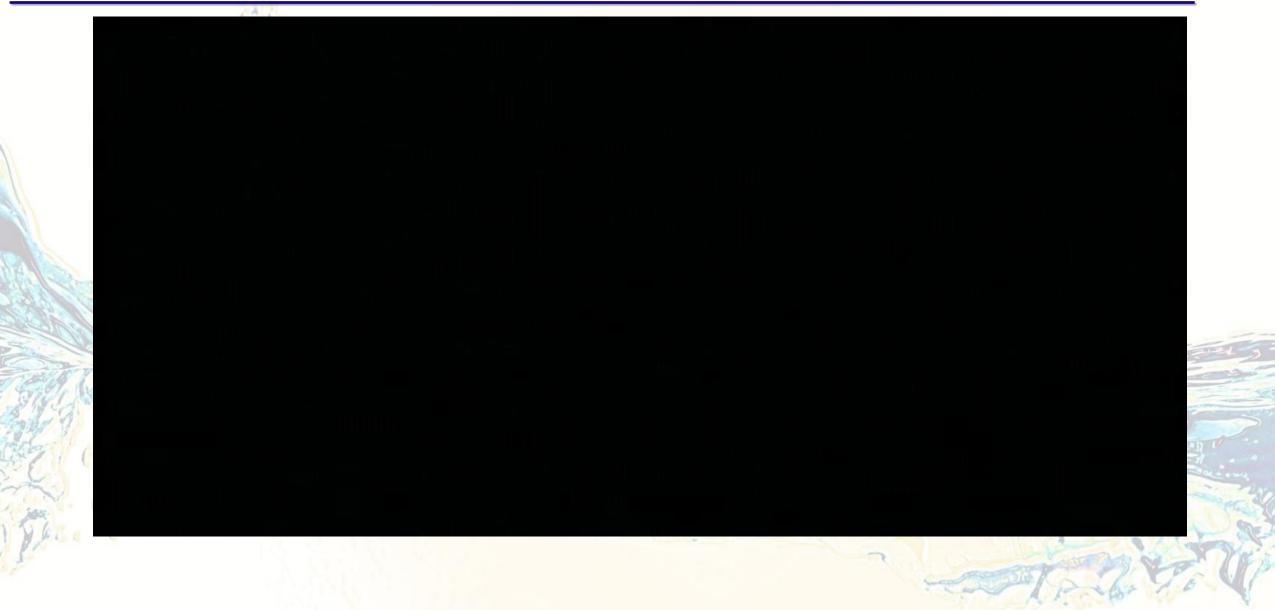

Grab bars exactly where you need them.

# LUXURY HAS NEVER BEEN SO ACCESSIBLE!

# WHY AVORA ACRYLIC BEATS TILE IN THE LONG RUN?

# **RELAXATION AT ANYTIME!**

# VIBRO-SSAGE

The Vibro Sonic Massage provides a comforting massage to 6 different pressure points throughout your back!

# **CLOSE UP VIEW OF NIAGARA THERAPY**

# VIBRO-SSAGE IN ACTION

Using a pork butt / shoulder

#### HOW THE VIBRO-SSAGE THERAPY MASSAGE SYSTEM WORKS?

The Vibro-ssage therapy
massage system is a therapist
approved, dual-action massage
jet system, that use a
combination of cycloidal
oscillation and deep tissue
massage.

The Vibro-ssage system helps to alleviate the secondary symptoms of many health conditions.

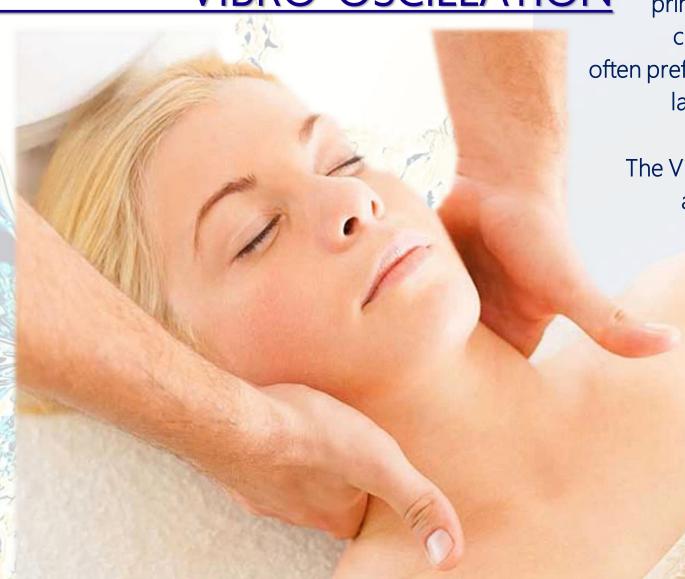

Once a senior stops moving, the aging process accelerates. A primary component of that process is circulation. Poor blood circulation compounds the effects of aging. Care providers often prefer massage therapy to improve blood circulation, but this lacks convenience and comfort for those that need it most.

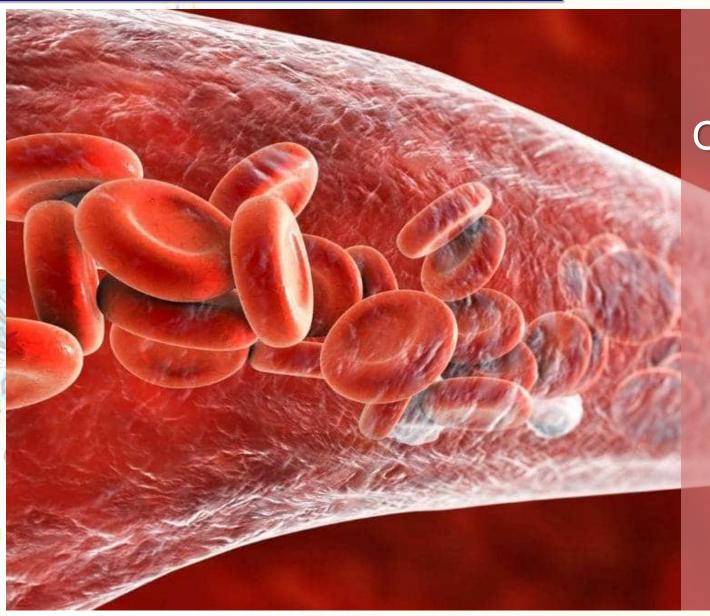

The Vibro-ssage therapy massage system allows seniors to take advantage of this preferred treatment, while offering both convenience and comfort in their very own home.

Each Vibro-ssage jet produces a three-dimensional massage action known as vibro-oscillation. The dual function of vibration and deep tissue massage actively aid in the repair, rejuvenation, and regeneration of your damaged tissue—the result of inflammation, injury, and disease over a lifetime.

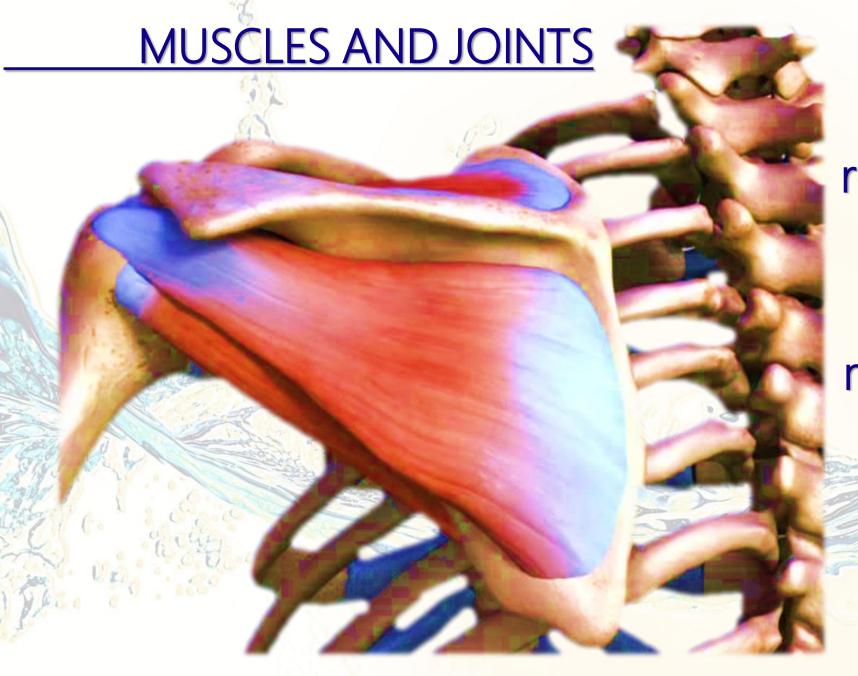

Users of the Vibro-ssage system quickly, and sometimes immediately, see improvement in their mobility, safety, and overall health.

# **BLOOD CIRCULATION**

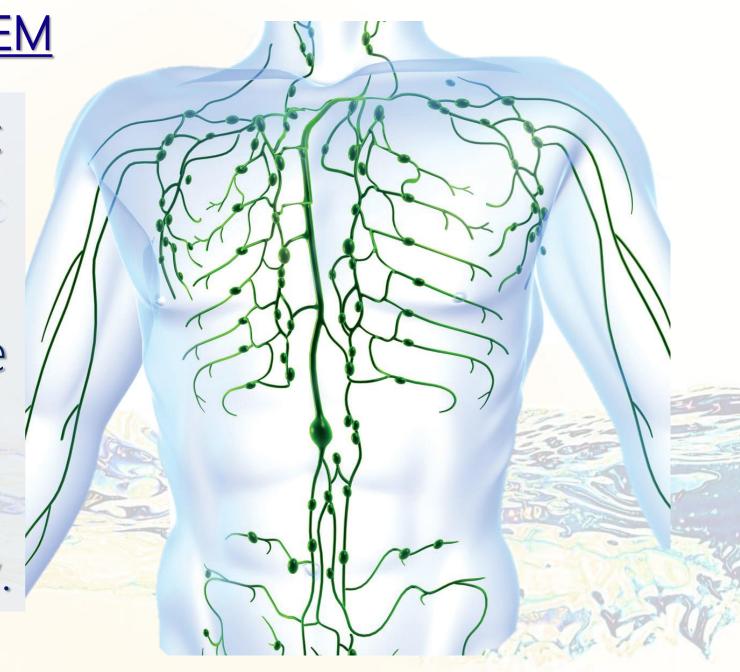

Accelerating oxygenated blood to the cells and the removal of waste products dramatically increases blood circulation.

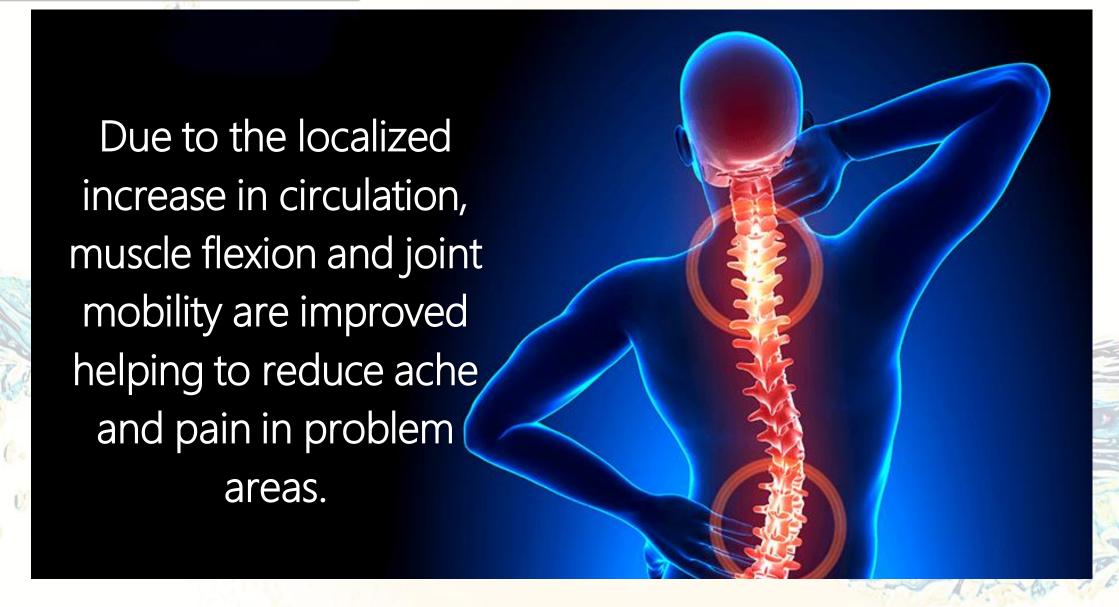

Muscles are relaxed and muscle spasm eased by activating the muscle tissue. Joint pain and stiffness are also greatly reduced.

LYMPHATIC SISTEM

Improved Lymphatic drainage will reduce swelling and fluid retention; encourage healing assisting the immune system to work more efficiently.

#### PAIN RELIEF

### REDUCED MEDICATION

Pain and ache relief can be achieved in many cases without the on going need for painkillers and medication avoiding common side effects.

#### AID RELAXATION

**HEALTH & MEDICAL PROGRAMS** 

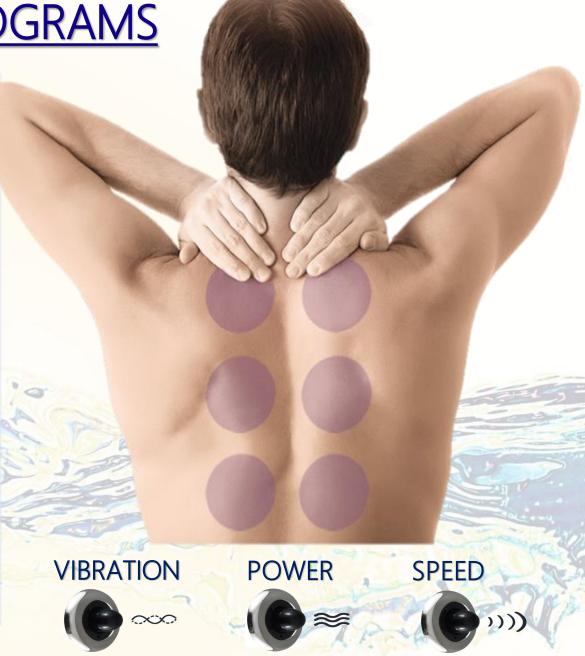

Soothe your aches and pains with the Vibro-ssage therapeutic massage system - take back your treatment with convenient and effective full-body massage therapy in your own home.

The easy-to-use and digitally-timed control system allows you to choose the best type and intensity of hydrotherapy massage for your condition. You have total control over your treatment with the independently adjustable zones throughout your Vibro-ssage system.

Alternatively, you can use your system without even turning on the faucet. Simply position yourself in the tub and activate your Vibrossage as normal to deliver a localized massage in a dry environment.

YES, YOU CAN USE THE VIBRO-SSAGE SYSTEM WITH OR WITHOUT WATER!

Enjoy your tub in a number of new ways. Just sit back and relax with a vibrating full body massage, with or without water.

### REFLEXOLOGY TREATMENT

system can be used to stimulate the

The Vibro-ssage therapy massage

reflexology zones in the feet by sitting in your tub—with or without water—and selecting your preferred vibration and

power level in the foot zone.

Various areas of the feet correspond to organs and systems of the body. Stimulating these related areas (nerves) in the feet can naturally accelerate the alleviation of symptoms caused by corresponding parts of the body.

Increased relaxation, improved circulation, greater pain relief, and overall improvement of your well-being is often experienced after just a 15 minute Vibro-ssage therapy massage treatment.
