

Limited Warranty Information

Thank you for choosing the product! We strive to bring the best home and garden decor products for our customer from across the world. Our exclusive designs and systematic approach to make your home a wonderland for you! In the event that we have not achieved our usual standard of excellence, we will repair or replace, at our discretion, within the warranty period. A valid proof of purchase, with the purchase date clearly indicated, must be provided. Photos of defective merchandise will also be required to help distinguish the actual cause of the defect. Please read below for a detailed description of warranty coverage.

• Procedure/Service

Should a warranty/claim be needed, you should contact the retailer from whom you purchased the product. If that is not an option, you can contact us. When contacting, you must be prepared to show proof of purchase, provide photographs and any other information needed to validate your claim. This may be necessary to distinguish between a partial or complete replacement of a defective product. The warranty does not cover any items with multiple parts; the warranty will ONLY cover the individual component of the unit/item that may be defective. Replacement parts can be made available to a consumer through the original selling party, or an approved parts retailer. If this is not an option, contact our customer service department. Item is covered under one year limited warranty from the date of purchase. If your purchase was after our 30-day grace period, payment information will be requested for shipping charges.

• Return / Damage Claim Instructions

Product assembly

PARTS	QTY
10 ft tree	14 pieces
Base	1 piece

- Check that you have all pieces and parts before continuing.
- Attach the bottom tree section to the base of the tree by screwing the section into the base in a clockwise direction.
- Attach the top section of the tree to the bottom section of the tree by pushing them together.
- Next you will see a connector attached to the bottom of the top section & attached to the top of the bottom section, you will need to screw these together, they will only fit one way, so take note of the inside shape of each connector and match up.
- The branches of the tree are wired and can be manipulated for their shaping. To do this lightly grip the branch at its thickest end and manipulate the branches to the desired look.
- You may now plug the tree into the power supply and stand back and admire your efforts.

SAFETY INSTRUCTIONS

Always isolate the power before commencing installation, repair or maintenance. If in doubt about the installation, repair or maintenance, consult a qualified electrician or contact your retail outlet. Always tighten the terminal's screws firmly, especially the attachment for low voltage wiring if applicable. Observe the correct color of the wiring before installation: blue (N), brown or black (L), yellow green (Earth.) If the luminaire is mounted on a metal surface, this surface must be connected to the protective earth conductor or the equipotential bonding conductor of the installation. If you want to dim the luminaire (if there is no dimming device installed) please be sure you use the right type of dimming device. In doubt always consult a qualified electrician or contact your local retail outlet. The manufacturer cannot be held responsible in case of usage of a-wrong type of dimming device. If the luminaire is mounted onto a ceiling-box or wall-box, it is obligated to cover the box with a lid first. In case that the luminaire is not mounted directly under the ceiling-box, be sure to use a solid fixing hook. In doubt about the fixing hook, or which patch to use, consult a qualified electrician or contact your retail outlet. Always observe all the technical specifications of the luminaire.
