

INSTRUCTION

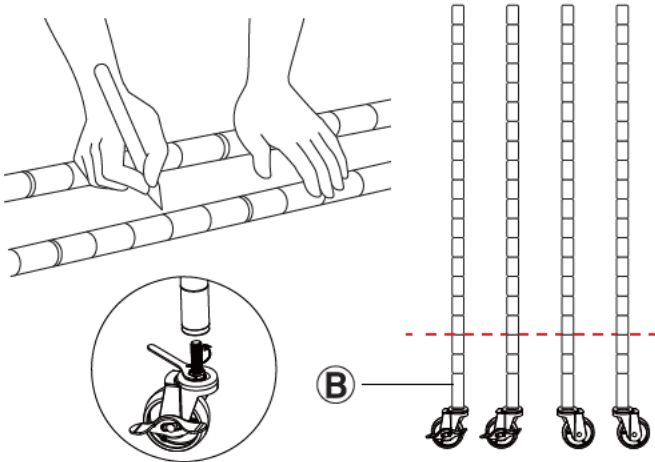

Note:

This part is only for protection when delivery, don't need it when installation.

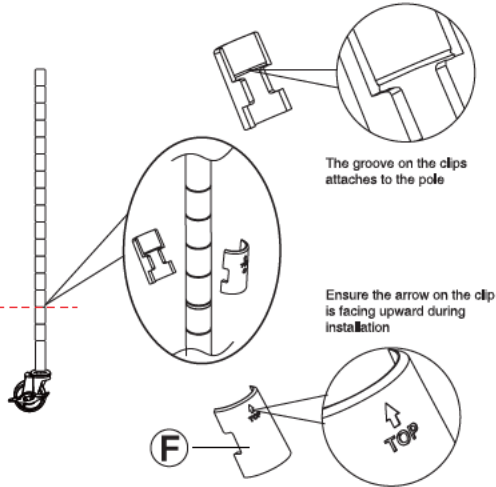

No.	A	B	C	D	E	F	G
Name	Wire Shelf	Lower Pole	Middle Pole	Upper Pole	Support Rail with Hooks	Plastic Clip	Leveling Feet
Parts							
Quantity	6 PCS	4 PCS	12 PCS	4 PCS	1 PCS	50 PCS	4 PCS

Assembly Steps:

1 Make a mark on the tube groove location where it is for installation.

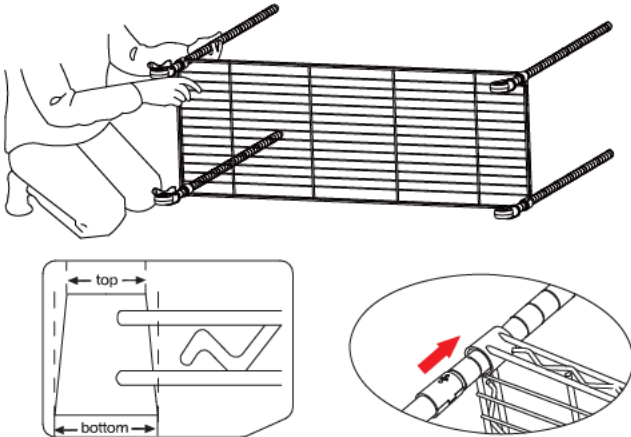

2 Place the clips onto the marked groove locations.

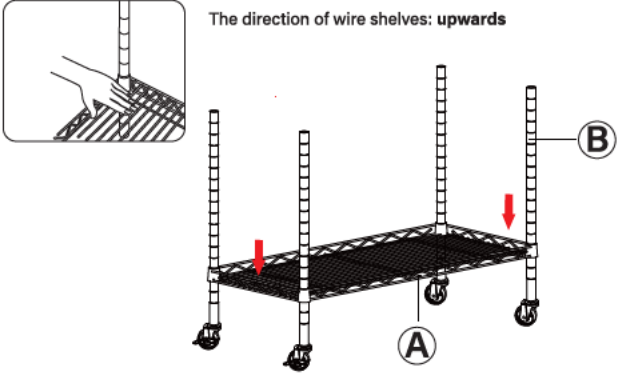

The groove on the clips attaches to the pole

Ensure the arrow on the clip is facing upward during installation

3 Place the bottom shelf onto the poles.

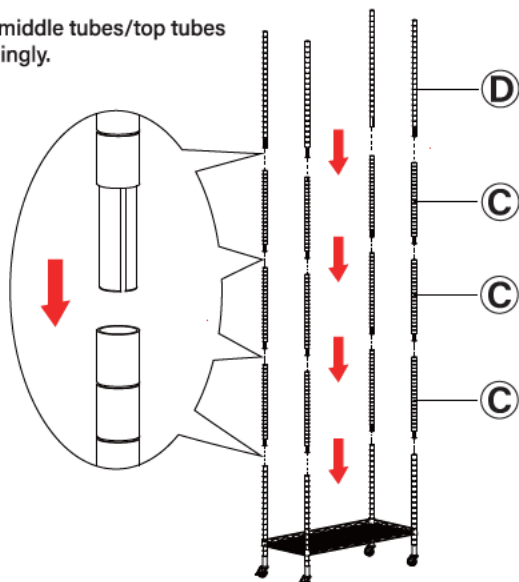

4 Push the bottom shelf down onto the plastic clips until the shelf fits tight.

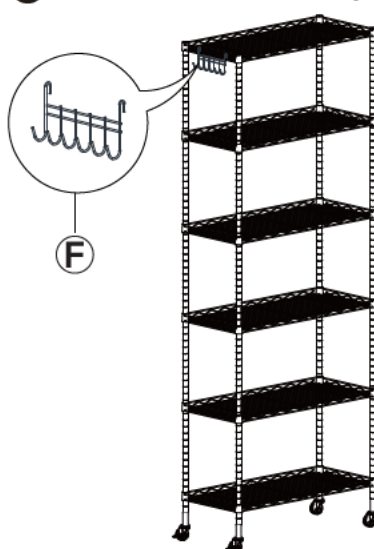

The direction of wire shelves: upwards

- 5** Install middle tubes/top tubes accordingly.

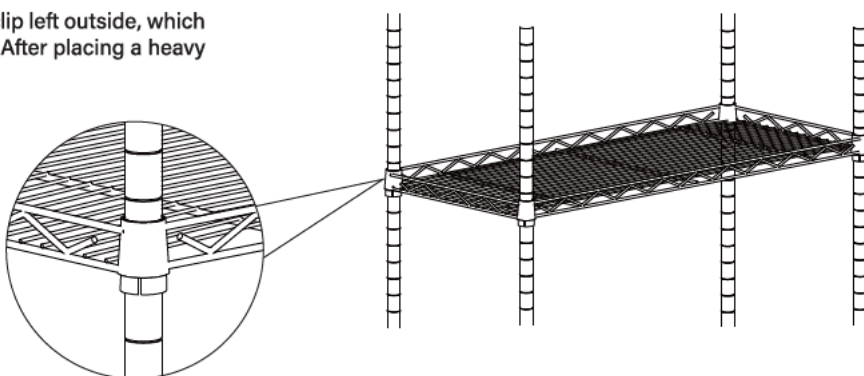

- 6** Install all the shelves according to step 3; then put on the hook.

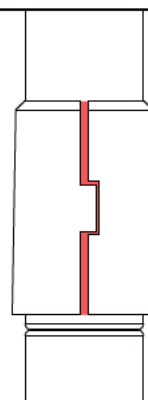

Warning:

1. When installed, there will be a small part of the clip left outside, which will not completely coincide with the shelf hole. After placing a heavy object, it will become tighter and tighter.

2. Gaps between plastic clips: structural design rather than a quality flaw, which makes the shelf anchored firmly.

3. The end with a notch is downward, which is designed to help determine the direction of the wire shelf. At the same time, according to the text and indication signs on the shelf and clips, you can confirm the correct installation steps.
