

# Assembly Instruction

**Tools Required:** Flathead screwdriver, Phillips screwdriver, pliers, wire cutters, wire strippers, electrical tape, safety glasses.

**Light Source:** Integrated 18W LED

**Compatible Dimmer Switches:** Lutron DVELV-300P or Lutron SELV-300P.

**Estimated Assembly Time:** 20-30 minutes

**Preparation:** Identify and inspect all parts before beginning installation. Check package content list and diagrams below to be sure all parts are present. If any parts are missing or damaged, do not attempt to assemble, install, or operate the fixture. Contact customer service for replacement parts.

## ⚠ Warnings and Cautions

Turn off electricity at circuit breaker or main fuse box before installation. Consult a licensed electrician if in doubt.

These instructions are provided for your safety. It is very important you read them completely before installing the fixture. We strongly recommend that a licensed, professional electrician perform the installation.

Disconnect fixture from power source before replacing bulbs. Make sure bulbs are given sufficient time to cool before removal.

## Package Contents

### STEP 1 – Install Shade Holder to Fixture Body

- A. Place Shade Holder (G) over the side of the Fixture Body (C), line up the hole on the Shade Holder (G) and the mounting hole on the Fixture Body (C), secure by threading Lock Screw (F) into the mounting hole. **Do NOT** tighten at this moment.

### STEP 2 – Install Inner Backplate and Fixture Body

- A. Pass the supply wires through Inner Backplate (A). Attach Inner Backplate (A) to Outlet Box with the head of Green Ground Screw facing you. Secure it with Outlet Box Screws (not included). Tighten until snug.
- B. Race all supply wires through the Inner Backplate (A) as shown. Refer to Step 3 for wiring connections.
- C. Attach Fixture Body (C) over Inner Backplate (A) and secure with Lock Screws (B). Tighten until snug with screwdrivers.

### STEP 3 – Wire Connections

- A. Wrap bare or green ground wire around green ground screw on the crossbar, no less than 2 inches from the end of the wire. Tighten the green ground screw.
- B. Use standard wire connectors (not included) to make all wire connections. Twist connectors until wires are tightly joined together. Wrap each connection with approved electrical tape and carefully stuff all the connected wires into the Outlet Box.

### STEP 4 – Install Glass to Fixture Body

- A. Insert Glass (E/D) into the Shade Holder (G) properly.
- B. Tighten Lock Screws (F) on both side of the fixture body and hand tighten until snug.

Your fixture is now assembled and ready to use. Enjoy!
