The LED Wall Pack provides energy-efficient, reliable illumination with selectable wattage (15W/20W/25W) and adjustable 3CCT (3000K-4000K-5000K) to meet various lighting needs. Its IK08 vandal-resistant, UV-resistant lens and IP66 wet-location-rated design ensure durability in outdoor environments. Featuring 0-10V dimming and a pre-installed photocell option, it offers flexible lighting control. Available in black and white finishes.

Application: Ideal for residential and commercial building exteriors, front entrances, decks, porches, patios, corridors, walkways, and other indoor and outdoor common areas.

The transparent cover on the side can be screwed off easily.
