

## Cleaning Instructions for Fabric

1. **Vacuum Regularly:** Use a vacuum cleaner with a brush attachment to remove dust, crumbs, and pet hair from fabric upholstery.
2. **Spot Clean Stains:** Immediately blot spills with a clean, dry cloth. Use a mild detergent mixed with water for spot cleaning, but test in an inconspicuous area first.
3. **Avoid Water:** Do not saturate the fabric with water while cleaning. Blot gently and allow the fabric to air dry completely.
4. **Professional Cleaning:** For deep cleaning, consider professional upholstery cleaning services. They have the expertise and equipment to clean fabric upholstery effectively.
5. **Keep Away from Direct Sunlight:** Prolonged exposure to direct sunlight can damage the product. Place furniture away from windows or use curtains to block sunlight.
