## TUMBLE | DESIGNED BY UNION DESIGN

Tumble is a sculptural side and coffee table that effortlessly blends sustainability with sophisticated design. Inspired by the idea of upcycling discarded clothing, Tumble's design draws a connection between thoughtful reuse and beautiful craftsmanship. Its round top, crafted from shredded and compressed recycled textiles, diverts waste from landfills while giving each top a unique, natural character all its own. The wood base, featuring a distinctive circular cutout, takes inspiration from the universal tumble-dry laundry symbol, adding a playful, lighthearted touch to the design.

The interplay between the warmth of the wood and the varied flecks within the textile board creates a modern yet timeless aesthetic. Light, airy, and organic in feel, Tumble brings a sense of softness and conscious design to lounge and collaborative areas.

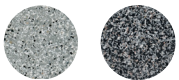

## FEATURES

- Available in two sizes - 15"Ø x 21"h side table or 23"Ø x 16"h coffee table
- Coffee and side table can be nested together to create groupings
- Round tabletop crafted from recycled textiles with a flecked appearance
- Sculptural wood base with ash veneer
- Slotted design for flat-packed shipping
