

13.12"

A technical line drawing of a light fixture. The fixture consists of a rectangular outer frame with a double-line border. Inside this frame is a smaller rectangular structure. A vertical rod passes through the top of the frame. A horizontal bar is attached to this rod, and a light bulb is suspended from it. The light bulb is a standard incandescent bulb with a visible filament. The drawing is oriented vertically, with the light bulb pointing downwards. Two dimension lines are present: one on the left side indicating a height of 13.12 inches, and one at the bottom indicating a width of 8.25 inches.
