FIG.3 FUSE BOX

1. Choose the pipe or pipes you needed, pass the wire through the pipes and canopy, then connect the canopy, pipe, glass shade and bulb(not included).

NOTE:You can choose the number of pipes to assemble according to the length you need.

NOTE:If the screw in the pipe makes threading difficult, you can separate it from the pipe by rotation, then thread the wire through the pipe and screw separately, and assemble them together again.

2. Install mounting bracket onto outlet box with provided outlet box screws.
3. Connect COPPER WIRE (ground wire) from the light to the ground wire from outlet box by using Green Grounding Screw onto the bracket. Connect BLACK WIRE (live wire) from light to the bare end of live wire from outlet box by twisting wire connector. Connect the WHITE WIRE (neutral wire) from the light to the bare end of neutral wire from outlet box with the other wire connector.
4. Make sure the wire connections are secure. Carefully place wires into outlet box.
5. Install the light fixture over mounting bracket and secure the fixture with decorative nut.
