## Notes

1. Please make sure the power is cut off before installation and when you clean the light. To ensure your safety, we recommend that two people install this ceiling fan together. The surface of the product and the electric wire should avoid scratching when mounting, and electric insulation gloves(not included) must be worn when installing. Please install it by someone with an electrical license if necessary.
2. This product is not **waterproof**, please install it in a dry environment.
3. The power supply should not exceed the specified range (rated voltage 85-265V). If the lamp works in the range of **non-rated** voltage for a long time, it may cause premature damage to the light.
4. Please note that this product can only be dimmed after installing the dimming switch and dimming bulbs.
5. Please read the operating manuals completely before installation and use and pay particular attention to the safety instructions included.
6. Please allow the slight color difference caused by the shooting light and 1-3cm error due to manual measurement and make sure you do not mind before ordering.
