Please knock Part K & J lightly if it is hard to connect them, and make sure the surface is flat when finished Step 3.

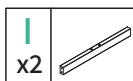

After the screw ② is installed, it will protrude slightly above the steel pipe, but this will not affect the subsequent installation steps.

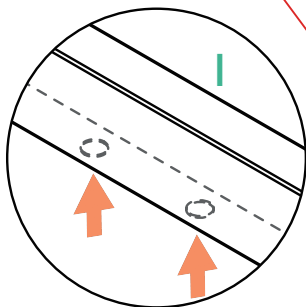

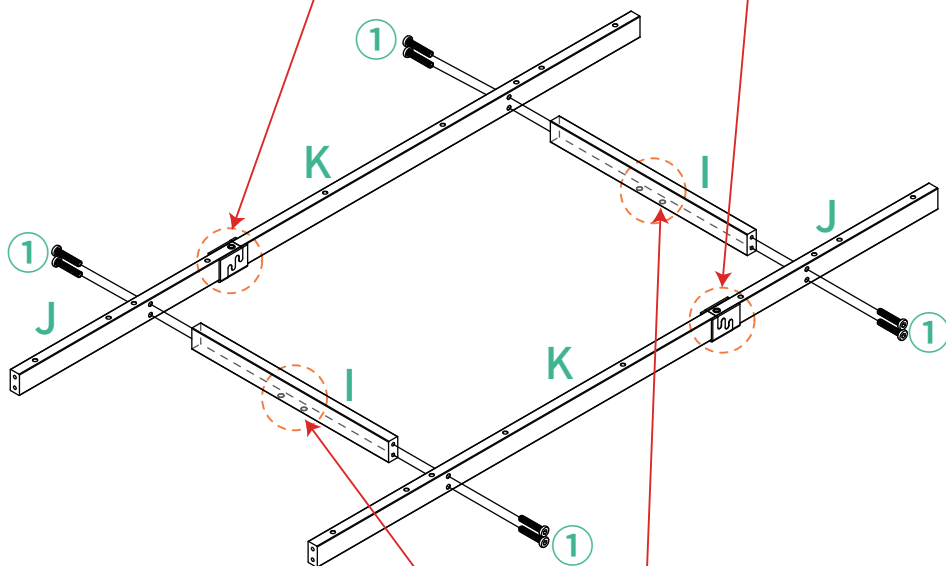

When connecting Parts J and K, if the parts do not align properly, you can tap gently with a tool to achieve a perfect fit.

Assembly Instructions

4

Please ensure the two joints are installed facing opposite directions, as shown in the diagram.

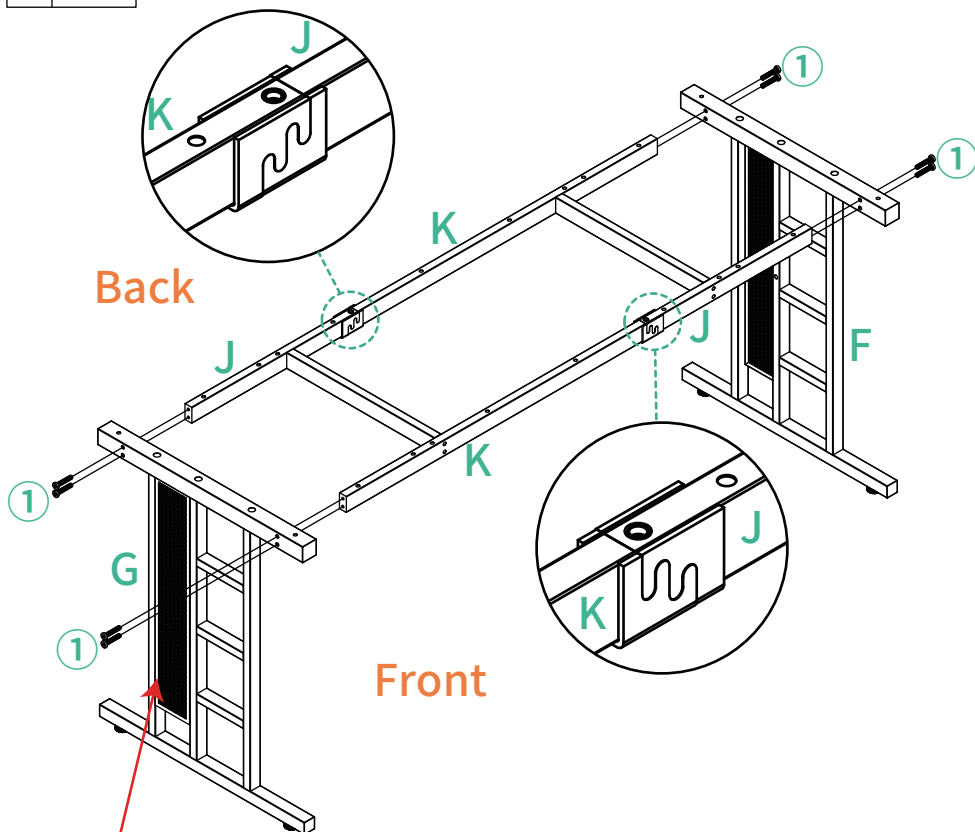

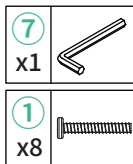

When installing Part I, make sure both holes are facing downward.

Assembly Instructions

5

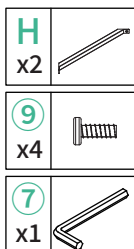

Please pay attention to the direction of the joints of parts K and J, ensuring they match the orientation shown in the enlarged diagram.

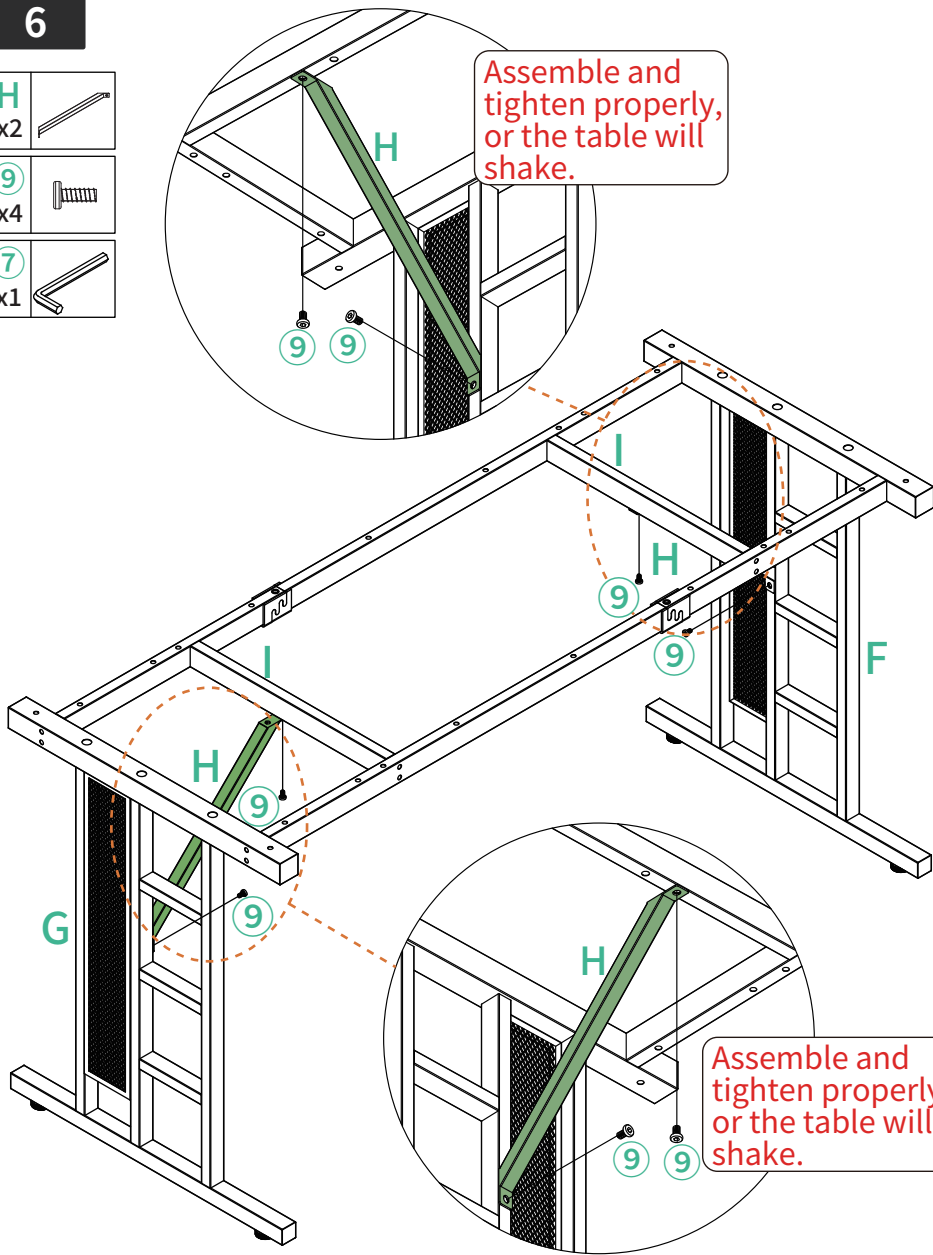

When installing Parts G and F, the flat side of grid should face outward.
