

How to Care and Maintain Your Natural Marble Dining Table

Protect Your Table

To protect your natural stone dining table, always use placemats, coasters, and trivets. The placemats and coasters will protect the table from spills, stains, and scratches while trivets will prevent hot dishes from damaging the surface.

All spills should be wiped up immediately to help avoid staining or etching of the stone surface.

Clean Regularly

Regular cleaning is essential to keep your stone dining table looking new and at its best. Wipe the table daily with a soft cotton cloth to remove any dust or debris. For a deeper clean, use a non-abrasive cleaner specifically designed for stone surfaces.
