Installation Instructions

a. Determining the mounting location.

⚠ Note: Before installing, make sure all parts are present. Compare parts with Hardware Include list. If any part is missing or damaged, do not attempt to install the product, contact us to obtain any missing parts.

1

Determine the desired mounting location, and mark the wall where the unit will be installed.

2

Drill three 11/32" holes in the wall and tap wall anchors into the drilled holes. Secure support plate to wall anchors using long screws and phillips head screwdriver.

3

Prior to commencing installation, please ensure the following:

- the main electrical supply has been powered off to complete installation.
- Safely connect these two wires one by one to the wires of wall switch in your home.

4

Hang back panel on support plate.
